Women Phenomenologists Past and Present Jadwiga S.

Smith, William S. Smith, Marie Antonios Sassine, 2025-07-24 This edited volume investigates a much needed exploration of women phenomenologists past and present in particular Hannah Arendt Hedwig Conrad Martius Edith Stein and Anna Teresa Tymieniecka The sections covered are devoted to the phenomenological exploration of autobiography subjectivism and posthumanism as dealing with modalities of the real and art poetry and music in particular This volume includes among others a study of the autobiography of Husserl a phenomenological analysis of an immigrant experience a poetic autobiography and a phenomenological recollection of emotions through artistic media Chapters also explore the notions of empathy certain aspects of mental illness and trauma and the experience of patients This book appeals to students and researchers working in applied phenomenology

African Environmental Ethics Munamato Chemhuru, 2019-05-30 This book focuses on under explored and often neglected issues in contemporary African environmental philosophy and ethics Critical issues such as the moral status of nature African conceptions of animal moral status and rights African conceptions of environmental justice African relational Environmentalism ubuntu African theocentric and teleological environmentalism are addressed in this book It is unique in so far as it goes beyond the generalized focus on African metaphysics and African ethics by exploring how these views might be understood differently in order to conceptualize African environmental ethics Against the background where environmental problems such as pollution climate change extinction of flora and fauna and global warming are plain to see it becomes useful to examine how African conceptions of environmental ethics could be understood in order to confront some of these problems facing the whole world This book will be of value to undergraduate students graduate students and academics working in the area of African Philosophy African Environmental Ethics and Global Ethics

in general *Astrobiology* Octavio A. Chon Torres, Ted Peters, Joseph Seckbach, Richard Gordon, 2021-10-12 ASTROBIOLOGY This unique book advances the frontier discussion of a wide spectrum of astrobiological issues on scientific advances space ethics social impact religious meaning and public policy formulation Astrobiology is an exploding discipline in which not only the natural sciences but also the social sciences and humanities converge Astrobiology Science Ethics and Public Policy is a multidisciplinary book that presents different perspectives and points of view by its contributing specialists Epistemological moral and political issues arising from astrobiology convey the complexity of challenges posed by the search for life elsewhere in the universe We ask if a convoy of colonists from Earth make the trip to Mars should their genomes be edited to adapt to the Red Planet s environment If scientists discover a biosphere with microbial life within our solar system will it possess intrinsic value or merely utilitarian value If astronomers discover an intelligent civilization on an exoplanet elsewhere in the Milky Way what would be humanity s moral responsibility to protect Earth from an existential threat To treat other intelligences with dignity To exploit through interstellar commerce To conquer Audience The book will attract readers from a wide range of interests including astronomers astrobiologists chemists biologists space engineers ethicists theologians and philosophers **Biodiversity** John Spicer, 2021-05-06 Our future is closely tied to that of the variety of life on Earth and yet there is no greater threat to it than us From population explosions and habitat destruction to climate change and mass extinctions John Spicer explores the causes and consequences of our biodiversity crisis In this revised and updated edition he examines how grave the situation has become over the past decade and outlines what we must do now to protect and preserve not just nature s wonders but the essential services that biodiversity provides for us seemingly for nothing **Ecology and Justice—Citizenship in Biotic Communities** David R. Keller, 2019-03-30 This is the first book to outline a basic philosophy of ecology using the standard categories of academic philosophy metaphysics axiology epistemology aesthetics ethics and political philosophy The problems of global justice invariably involve ecological factors Yet the science of ecology is itself imbued with philosophical questions Therefore studies in ecological justice the sub discipline of global justice that relates to the interaction of human and natural systems should be preceded by the study of the philosophy of ecology This book enables the reader to access a philosophy of ecology and shows how this philosophy is inherently normative and provides tools for securing ecological justice The moral philosophy of ecology directly addresses the root cause of ecological and environmental injustice the violation of fundamental human rights caused by the inequitable distribution of the benefits economies and costs diseconomies of industrialism Philosophy of ecology thus has implications for human rights pollution poverty unequal access to resources sustainability consumerism land use biodiversity industrialization energy policy and other issues of social and global justice This book offers an historical and interdisciplinary exegesis The analysis is situated in the context of the Western intellectual tradition and includes great thinkers in the history of ecological thinking in the West from the natural sciences social sciences and humanities Keller asks the big questions and surveys

answers with remarkable detail Here is an insightful analysis of contemporary classical and ancient thought alike in the ecological sciences the humanities and economics the roots and fruits of our concepts of nature and of being in the world Keller is unexcelled in bridging the is ought gap bridging nature and culture and in celebrating the richness of life its pattern process and creativity on our wonderland Earth Holmes Rolston III University Distinguished Professor Colorado State University Author of *A New Environmental Ethics The Next Millennium for Life on Earth* 2012 Mentored by renowned ecologist Frank Golley and renowned philosopher Frederick Ferré David Keller is well prepared to provide a deep history and a sweeping synthesis of the idea of ecology including the metaphysical epistemological and ethical aspects of that idea as well as the scientific J Baird Callicott University Distinguished Research Professor University of North Texas Author of *Thinking Like a Planet The Land Ethic and the Earth Ethic* 2013 Environmental Ethics Louis P. Pojman, 1994 The most comprehensive introduction to environmental ethics available Environment Ethics offers students a current look at the issues and topics that dominate the field today organized into two main parts that take students seamlessly from theory to application This Fifth Edition of the Pojmans popular anthology like its predecessors includes numerous topic areas not covered in other anthologies including an all new section on Climate Change Featuring articles carefully selected for clarity and accessibility the text follows a dialogic pro con format presenting divergent positions on each topic ensuring that students are both exposed to and understand both sides of every topic so they can develop their own informed positions The bulk of royalties for this book are donated to groups dedicated to protecting the environment such as the Wilderness Society and the Sierra Club Our Planet ,1997 **Encyclopedia of Biodiversity** Simon A. Levin, 2001 Includes articles on agriculture ecology forests wetlands and environment as well as organisms Philosophical Writings ,2000 The Environmental Ethics and Policy Book Donald VanDeVeer, Christine Pierce, 1998 This text and sourcebook crosses disciplinary boundaries and attends seriously to economic reasoning and its implications for environmental policy issues while taking a broad view of questions of ethics It is appropriate and valuable not only for philosophy and environmental science students but also for students of economics biology engineering and public policy **A New Century for Natural Resources Management** Richard L. Knight, Sarah F. Bates, 1995-03 This book explores the changes that are leading to a new century of natural resources management It places the current situation in historical perspective analyzes the forces that are propelling change and describes and examines the specific changes in goals policy and practice that are transforming all aspects of natural resources management The book is an important overview for wildlife biologists foresters and others working for public land agencies professors and students of natural resources and all those whose livelihood depends on the use of public natural resources Environmental Ethics: Divergence and Convergence Susan J Armstrong, Richard G Botzler, 2003-08-28 **The National Geographical Journal of India** ,1993 **Our Fragile World** Mostafa Kamal Tolba, 2001 WWF ,1996 Philosophy and Geography III Andrew Light, Jonathan M. Smith, 1998-12-23

Places are today subject to contrary tendencies They lose some functions which may scale up to fewer more centralized places or down to numerous more dispersed places and they gain other functions which are scaling up and down from other places This prompts premature prophecies of the abolition of space and the obsolescence of place At the same time a growing literature testifies to the persistence of place as an incorrigible aspect of human experience identity and morality Place is a common ground for thought and action a community of experienced particulars that avoids solipsism and universalism It draws us into the philosophy of the ordinary into familiarity as a form of knowledge into the wisdom of proximity Each of these essays offers a philosophy of place and reminds us that such philosophies ultimately decide how we make use and understand places whether as accidents instruments or fields of care **The New Political Economy**
