A New Insurgency The Port Huron Statement And Its Times:

A New Insurgency Howard Brick, Gregory L. Parker, 2015 Students for a Democratic Society SDS was just one of several new insurgent movements for democracy and social justice during the late 1950s and early 1960s and it must be understood in the context of other causes and organizations in the United States and abroad that inspired its founding manifesto the Port Huron Statement In *A New Insurgency The Port Huron Statement and Its Times* a diverse group of more than forty scholars and activists take a transnational approach in order to explore the different though often interconnected campaigns that mobilized people along varied racial ethnic gender and regional dimensions from the birth of the New Left in the civil rights and pacifist agitation of the 1950s to the Occupy movements of today This volume features three never before published manifesto drafts written by Tom Hayden in early 1962 that generated the discussion leading to the Port Huron meeting Other highlights include recollections from leading women in the Port Huron deliberations who three years later protested the subordination of women within the radical movements thus setting the stage for the rise of women's liberation *A New Insurgency* is based on the University of Michigan's conference commemorating the fiftieth anniversary of the Port Huron Statement in 2012 Blurb The fiftieth anniversary of the Port Huron Statement has drawn a great number of reflections and commemorations but this carefully conceived volume offers an account of unrivaled ambition exceptional breadth and surprising insight It both excavates the event itself vividly perceptively exhaustively and gives it the largest and most illuminating of contexts *A New Insurgency* is as close to definitive as any volume of this kind can become Geoff Eley Karl Pohrt Distinguished University Professor of Contemporary History University of Michigan **A New Insurgency**, 2012

Don't Call Us Girls Barbara Leonora Tischler, 2024-11-30 In a collective voice calling for peace tracing back to pre World War II *Don't Call Us Girls* follows the protests of women and their allies from the White House to the Arc de Triomphe heralding their impact on today's world *Don't Call Us Girls* examines the importance of women's participation in the Civil Rights Movement in the United States and the international anti war movement This collective voice for peace and an end to nuclear proliferation reached back to before the Second World War and then firmly embedded itself during the war years when women assumed such important roles in the workplace that Franklin D Roosevelt called them the Arsenal of Democracy When the men returned from war women were encouraged by forces as powerful as government agencies and eminent psychiatrists to return to their place at home And return home they did only to realize that they could use the skills they practiced as housewives to begin organizing themselves into groups that would start a wave of protest action that swept through the late 1950s gathering up the Civil Rights Movement as it hurtled ever forward through the next two decades In the 1960s and 1970s no institution or convention was sacred many aspects of women's lives were fair game for criticism protest and change In this no holds barred era women debated everything from international nuclear policies pay equity and child care for women to reproductive rights and sexual politics They protested in the streets outside the White House in

Trafalgar Square at the Arc de Triomphe on university campuses and just about anywhere else they would be heard They were tired of the role society had cast for them and they would not rest until they saw the substantial change that seemed promising with the emergence of Second Wave Feminism in the 1970s While we still live in a patriarchal society we have these women to thank for many of the freedoms we now enjoy If they have taught us anything it is never to stop pushing back against the patriarchy and to rest only when we are truly equal The final chapter of Don't Call Us Girls reminds us that there is still a lot of work to do Stumbling toward Utopia Timothy Goeglein, 2024-01-31 In Stumbling toward Utopia author Tim

Goeglein looks at the philosophies and policies that led to the societal earthquake of the 1960s and how those philosophies and policies have led to the cataclysm America faces today He offers a blueprint for how we can reject those philosophies and policies by returning to the core values upon which America was built personal responsibility respect for life sexual restraint and patriotism **Making History / Making Blintzes** Mickey Flacks, Dick Flacks, 2018-10-31 Making History Making

Blintzes is a chronicle of the political and personal lives of progressive activists Richard Dick and Miriam Mickey Flacks two of the founders of Students for a Democratic Society SDS As active members of the Civil Rights movement and the anti Vietnam War movement in the 1960s and leaders in today's social movements their stories are a first hand account of progressive American activism from the 1960s to the present Throughout this memoir the couple demonstrates that their lifelong commitment to making history through social activism cannot be understood without returning to the deeply personal context of their family history of growing up Red Diaper babies in 1950s New York City using folk music as self expression as adolescents in the 1960s and of making blintzes for their own family through the 1970s and 1980s As the children of immigrants and first generation Jews Dick and Mickey crafted their own religious identity as secular Jews created a critical space for American progressive activism through SDS and ultimately found themselves raising an American family

Afro-Asian Connections in Latin America and the Caribbean Debbie Lee-DiStefano, Luisa Marcela Ossa, 2018-11-27 Afro Asian Connections in Latin America and the Caribbean explores the connections between people of Asian and African descent in Latin America and the Caribbean Although their journeys started from different points of origin spanning two separate oceans their point of contact in this hemisphere brought them together under a hegemonic system that would treat these seemingly disparate continental ancestries as one Historically an overwhelming majority of people of African and Asian descent were brought to the Americas as sources of labor to uphold the plantation agrarian economies leading to complex relationships and interactions The contributions to this collection examine various aspects of these connections The authors bring to the forefront perspectives regarding history literature art and religion and engage how they are manifested in these Afro Asian relationships and interactions They investigate what has received little academic engagement outside the acknowledgement that there are groups who are of African and Asian descent In regard to their relationships with the dominant Europeanized center references to both groups typically only view them as singular entities What this
