**Sublime Spaces and Visionary Worlds** Leslie Umberger,2007-10-04 The need to personalize our surroundings is a defining human characteristic For some this need becomes a compulsion to transform their personal surroundings into works of art The John Michael Kohler Arts Center in Sheboygan Wisconsin has undertaken the mission to preserve these environments which are presented for the first time in Sublime Spaces and Visionary Worlds This colorful and inspiring book features the work of twenty two vernacular artists whose locales personal histories and reasons for art making vary widely but who all share a powerful connection to the home as art Featured projects range from art environments that remain intact such as Simon Rodia's Watts Towers in California to sites lost over the years such as Emery Blagdon's six hundred elaborate Healing Machines made of copper aluminum tinfoil magnets ribbons farm machinery parts painted light bulbs beads coffee can lids and more Sublime Spaces and Visionary Worlds is the first book to explore these spectacularly offbeat spaces in detail From Original Rhinestone Cowboy Loy Bowlin's wall to wall glitter and foil living room to the concrete bestiary of Witch of Fox Point Mary Nohl each artist and project is described in detail through a wealth of visuals

and text Sublime Spaces and Visionary Worlds reminds us that our decorative choices tell the world not just what we like but who we are     **Walking Home Ground** Robert Root,2017-10-24 When longtime author Robert Root moves to a small town in southeast Wisconsin he gets to know his new home by walking the same terrain traveled by three Wisconsin luminaries who were deeply rooted in place John Muir Aldo Leopold and August Derleth Root walks with Muir at John Muir State Natural Area with Leopold at the Shack and with Derleth in Sac Prairie closer to home he traverses the Ice Age Trail often guided by such figures as pioneering scientist Increase Lapham Along the way Root investigates the changes to the natural landscape over nearly two centuries and he chronicles his own transition from someone on unfamiliar terrain to someone secure on his home ground In prose that is at turns introspective and haunting Walking Home Ground inspires us to see history s echo all around us the parking lot that once was forest the city that once was glacier Perhaps this book is an invitation to walk home ground Root tells us Perhaps too it s a time capsule a message in a bottle from someone given to looking over his shoulder even as he tries to examine the ground beneath his feet     *Yearning for the Land* John W.

Simpson,2009-09-09 A beautiful meditative memoir mixed with travel and history this unique book is the story of one American s search for a deeper connection to the land Drawn by a sense that he is missing a critical link to his home in suburban Ohio John W Simpson heads for rural Scotland where he encounters his own family history as well as estate owners and tenant farmers who have centuries long ties to their land As he travels he meditates on the legacy of the great 19th century conservationist John Muir who himself developed a complex love of the land when he immigrated from Scotland s North Sea coast to the fields and forests of Wisconsin As Simpson physically retraces Muir s journey he wonders what sense of belonging Muir found on the frontier that modern America with its strip malls and housing developments has forgotten A fascinating story of changing perceptions and values from the Old World to the New Yearning for the Land shows us just how much roots matter both in our own lives and in the many ways time and history landscape and community are tightly intertwined     **Yearning for the Land** John Warfield Simpson,2002 What does landscape mean to us How does it shape our sense of rootedness to place and connection to community Can that sense and that connection enrich us in the same manner as having knowledge of our familial lineage Landscape historian John Warfield Simpson sets out to answer these questions by following the journey of the great conservationist John Muir from his homeland along the North Sea coast in East Lothian County Scotland to his family s adopted home in the fields and forests of Marquette County Wisconsin Along the way he discovers much about himself and we in turn can learn much about ourselves In 1849 the Muirs immigrated from East Lothian to the wilds of central Wisconsin in search of religious and economic opportunity What concept of land did they and millions of others from the Old World leave behind and what did they find in their New World homes Simpson physically retraces the Muirs journey as he delves into the meaning and importance of place He speaks with estate owners and tenant farmers in Scotland who have centuries long ties to the land they own or work to Wisconsin farmers for whom one hundred

years measures a profound connection to place and to Native Americans working to reclaim the land they lost to white pioneers like the Muirs and to the author s own Scottish ancestors Among all of these people Simpson discovers a powerful link between personal and communal history and a deep connection to the land on which they have been played out Time and history landscape and community are tightly intertwined Simpson learns Roots matter he discovers in his adopted home of Cockburnspath Berwickshire Scotland
