Watson,Nicolas Wyatt,2019-04-01 [Creation Rediscovered](#) Jeffery M. Leonard,2021-10-05 [Creation Rediscovered](#) by Jeffery M Leonard guides readers through a contextual reading of the Bible's creation stories. Over the last two centuries few subjects have generated as much controversy for Christians as has creation. The whethers, whens, and hows of creation have often become a battlefield in which the pitched forces of competing sides—Darwinists and creationists, young earthers and old figurativists, and literalists—have struggled for the upper hand. Like most battles, this fight has tended to inflict a fair amount of collateral damage along the way. This is especially true for those put in the terrible position of feeling they have had to choose between the Bible they have fallen in love with and the science they have studied. In this book, Jeffery Leonard writes to fellow travelers in the faith who want to take the biblical text seriously while at the same time appreciate science's exploration of what we consider to be God's creation. It is his contention that setting the Bible's creation texts back within their ancient context allows us to do both of these things. Indeed, Leonard believes that when we reread what the Bible has to say about creation in its original setting, we find meaning in the text far more profound than what we have previously imagined. Key points and features: Written by a Bible scholar. Unique, timely, and fresh interpretation. Helps readers see the Bible's creation stories as vessels of healing and hope in God's larger plan for humanity. Attempts to redirect Christians to read the ancient creation stories within the context in which they were written.

Ian Young, 2008. Since the beginning of critical scholarship, biblical texts have been dated using linguistic evidence. In recent years, this has become a controversial topic. Volume 1 introduces the field of linguistic dating of biblical texts with many texts, samples presented for study. Volume 2 begins with a book by book survey of scholarship on the origins of biblical sources, passages, and books, followed by a detailed synthesis of the topics introduced in the first volume. The authors argue that the scholarly use of language in dating biblical texts and even the traditional standpoint on the chronological development of biblical Hebrew require a thorough re-evaluation and propose a new perspective on linguistic variety in biblical Hebrew. Early Biblical Hebrew (EBH) and Late Biblical Hebrew (LBH) do not represent different chronological periods in the history of biblical Hebrew, but instead represent co-existing styles of literary Hebrew throughout the biblical period.
