## **A Return To Innocence Philosophical Guidance In An Age Of Cynicism:**

**A Return to Innocence** Jeffrey M. Schwartz, Annie Gottlieb, 1998-09-23 On the verge of a new millennium in an age of unprecedented affluence personal freedom and scientific power millions of us young and not so young find ourselves emotionally and morally adrift Even as our mastery of the material world reaches new heights almost daily mastery of the inner world of our own actions emotions and deepest hopes often tragically eludes our grasp As families come apart adults become bitter and emotionally detached Children fall prey to a culture of sex and drugs cynical materialism and self destructive nihilism It increasingly seems that in the piercing words of Jesus we have gained the whole world and lost our own souls In *A Return to Innocence* psychiatrist and neuroscientist Jeffrey M Schwartz a Jewish student of both Buddhist meditation and Christian philosophy combines 3 000 years of wisdom with cutting edge brain and behavioral research to guide us in recovering our souls our safety our integrity and our capacity to love After a 35 year experiment in unbridled self gratification that has left a burden of tremendous suffering in its wake at last we are ready to understand that innocence in its original meaning of not harming is actually the highest and most difficult of human achievements The lost art of self command that empowers us not to harm ourselves or one another is the core teaching of humanity's greatest spiritual masters including Moses Jesus and Buddha If we value our children our culture even our very freedom we must return to true innocence as our source of inner lightness clarity and spiritual power A practical path to this wellspring of inner purity was mapped out 2 500 years ago by Gotama Buddha in Dr Schwartz's view the greatest psychologist who ever lived whose still fresh insights into human nature can serve as a bridge joining the wisdom of the Bible to the discoveries of 21st century science A deeply felt thought provoking exchange of letters between spiritual coach Dr Schwartz and sixteen year old Patrick Buckley the son of a single mother frames this fascinating powerful code for living that shows how the best in each of us can thrive Spiritual and philosophical ideas become hands on tools for dealing with real life dilemmas as Dr Schwartz addresses Patrick's urgent questions about morality responsibility and freedom of choice This book offers an empowering combination of hope inspiration accurate information about the biology of human nature as well as desperately needed guidance for keeping that nature on a life affirming path To everyone young and old *A Return to Innocence* offers dynamic concrete solutions for the pain in our hearts the fear in our streets and the cynicism that has corroded our ideals It speaks directly to our longing for a decent meaningful and fulfilling life The traditional values that made civilization possible were thought to be outrageously radical and daring when they were first introduced by revolutionaries like Moses Buddha Jesus and Mohammed Yet those codes of behavior became traditional that is they got handed down from generation to generation for one simple reason they work And they work because they're based on a highly sophisticated and deeply wise understanding of human nature We often hear the phrase Knowledge is power but nowhere is it truer than when it comes to knowledge of ourselves Are we humans primarily driven or drivers Are we blameless puppets of our genes our hormones our childhoods or

do we have the power and so the responsibility to choose what we will do In our day and age everyone wants to be or at least appear to be streetwise experienced cool and cynical What people don t realize is that the source of the word innocent is a place of great power It comes from the Latin words for not and to harm True innocence is the highest of human accomplishments Not doing harm requires the utmost in awareness effort and courage The state of the world begins right here in the state of your mind

**The Volitional Brain** Benjamin Libet,Anthony Freeman,Keith Sutherland,2000-06-08 It is widely accepted in science that the universe is a closed deterministic system in which everything can ultimately be explained by purely physical causation And yet we all experience ourselves as having the freedom to choose between alternatives presented to us we are in the driving seat The puzzling status of volition is explored in this issue by a distinguished body of scientists and philosophers

*Taking Parenting Public* Cornel West,Sylvia Ann Hewlett,Nancy Rankin,2002-02-05 Taking Parenting Public makes a compelling case that parenting has become dangerously undervalued in America today It calls for a new investment both personal and public into the work of raising children and argues that we are all stockholders in the next generation With a foreword by Sylvia Ann Hewlett and Cornel West Taking Parenting Public crosses boundaries to bring together thinkers from diverse fields spanning the political

spectrum It features contributions from distinguished experts in economics political science public policy child development public health history and the media While recent books have focused on working mothers or absent fathers Taking Parenting Public is the first volume to take a comprehensive look at the common struggles of parents These essays go beyond the usual calls for more and better child care and other strategies of parent replacement to offer fresh ideas for parent replenishment ways of putting mothers and fathers back into the lives of their children not only as economic providers but also as emotional and moral providers For more information visit the National Parenting Association Web site [The Greek Praise of Poverty](#)
