The Coloniality of Modern Taste Zilkia

Janer,2022-12-30 This book analyzes the coloniality of the concept of taste that gastronomy constructed and normalized as modern It shows how gastronomy s engagement with rationalist and aesthetic thought and with colonial and capitalist structures led to the desensualization bureaucratization and racialization of its conceptualization of taste The Coloniality of Modern Taste provides an understanding of gastronomy that moves away from the usual celebratory approach Through a discussion of nineteenth century gastronomic publications this book illustrates how the gastronomic notion of taste was shaped by a number of specifically modern constraints It compares the gastronomic approach to taste to conceptualizations of taste that emerged in other geographical and philosophical contexts to illustrate that the gastronomic approach stands out as particularly bereft of affect The book argues that the understanding of taste constructed by gastronomic texts continues to burden the affective experience of taste while encouraging patterns of food consumption that rely on an exploitative and unsustainable global food system This book will appeal to students and scholars interested in cultural studies decoloniality affect theory sensory studies gastronomy and food studies

Davis,2013-01-02 In the eighteenth and nineteenth centuries French cooks began to claim central roles in defining and enforcing taste as well as in educating their diners to changing standards Tracing the transformation of culinary trades in France during the Revolutionary era Jennifer J Davis argues that the work of cultivating sensibility in food was not simply an
