A Rosario Castellanos Reader Rosario Castellanos, Maureen Ahern, 1988 Offers a semiotic approach to Rosario Castellanos writings and includes selections that show the interrelatedness of her work **The War of the Fatties and Other Stories from Aztec History** Salvador Novo, 2014-12-15 In *The War of the Fatties* a campy tongue in cheek retelling of an episode from the Mexican Trojan War naked fat women from Tlatelolco discombobulate Tenochtitlan's invading army by squirting them with breast milk Told with satiric allusions to the policies and tactics used by Mexico's current ruling party PRI to consolidate its power the play unfolds a history of vain rivalry and decadence intricate political maneuvers corruption and unchecked ambition that determined the course of Mexican history for two centuries before the Spanish conquest Novo's other works in this collection *A Few Aspects of Sex among the Nahuas* *Ahu tzotl and the Magic Water* *Cuauht moc Play in One Act* *Cuauht moc and Eulalia* *A Dialogue* *Malinche and Carlota* *A Dialogue* and *In Ticitl zcatl or The Enchanted Mirror* *Opera in Two Acts* represent nearly all of his Aztec related writings Taken together they provide a delightful introduction to Novo's later works and a light hearted historically accurate introduction to Aztec culture The text is supplemented by a glossary of Nahuatl terms notes on the historical characters and an introduction that provides historical background and places Novo's works within their cultural context **The Writing of Elena Poniatowska** Beth E. Jørgensen, 2010-07-05 Elena Poniatowska is one of Latin America's most distinguished and innovative living writers Advocacy of women and the poor in their struggle for social and economic justice denunciation of the repression of that struggle and a tendency to blur the boundaries between conventional literary forms characterize her writing practice Asserting that Poniatowska's writing has been uniquely shaped by her experience as a journalist and interviewer Beth Jørgensen addresses four important texts *Palabras cruzadas* interviews *Hasta no verte Jes s m o* testimonial novel *La noche de Tlatelolco* oral history and *La Flor de Lis* novel of development She also treats related pieces including *Lilus Kikus* short fiction *De noche vienes* short stories *Fuerte es el silencio* chronicles and several of Poniatowska's essays Her readings incorporate a variety of critical approaches within a feminist framework **The Writings of Carlos Fuentes** Raymond L. Williams, 1996-01-01 In this book Raymond Leslie Williams traces the themes of history culture and identity in Fuentes work particularly in his complex major novel *Terra Nostra* He opens with a biography of Fuentes that links his works to his intellectual life a life that has been centrally concerned with finding and defining the source and character of Latin American culture The heart of the study is Williams extensive reading of the novel *Terra Nostra* in which Fuentes explores the presence of Spanish culture and history in Latin America Williams concludes with a look at how Fuentes other fiction relates to *Terra Nostra* including Fuentes own division of his work into fourteen cycles that he calls *La Edad del Tiempo* and with an interview in which Fuentes discusses his concept of this cyclical division **Voices of Mexico** , 1986 News commentary and documents on current events in Mexico and Latin America **The Art of Ana Clavel** Jane Elizabeth Lavery, 2017-07-05 Ana Clavel is a remarkable contemporary

Mexican writer whose literary and multimedia oeuvre is marked by its queerness The queer is evinced in the manner in which she disturbs conceptions of the normal not only by representing outlaw sexualities and dark desires but also by incorporating into her fictive and multimedia worlds that which is at odds with normalcy as evinced in the presence of the fantastical the shadow ghosts cyborgs golems and even urinals Clavels literary trajectory follows a queer path in the sense that she has moved from singular modes of creative expression in the form of literary writing a traditional print medium towards other non literary forms Some of Clavels works have formed the basis of wider multimedia projects involving collaboration with various artists photographers performers and IT experts Her works embrace an array of hybrid forms including the audiovisual internet enabled technology art installation video performance and photography By foregrounding the queer heterogeneous narrative themes techniques and multimedia dimension of Clavels oeuvre the aim of this monograph is to attest to her particular contribution to Hispanic letters which arguably is as significant as that of more established Spanish American boom femenino women writers

The Bloomsbury Review, 1989 Has also occasional unnumbered supplements

Hybrid Nations Patricia Lapolla Swier, 2009 This book is an interdisciplinary study that addresses the critical role that gender plays in the formation of national identities in Latin America that are negotiated and challenged within extreme struggles for power This study which traverses the national landscapes of Argentina Cuba Venezuela and Guatemala and covers the time span between 1837 and 1946 is linked by the author s common strategy of employing gender codes in order to challenge overtly masculinist hegemonic political orders One of the goals of this investigation is to explore the fissures that surface as a result of the ongoing fluctuations of gender codes due in part to the diverse shifting of institutions of power during the late nineteenth and early twentieth century By disturbing deleterious conceptualizations associated with femininity and masculinity one can embark upon new and open ended readings of these historical national texts and appreciate the groundbreaking strides of early revolutionary Latin American writers
