all who observe them They are at once visions of majesty and symbols of shelter and peace The beauty inherent in trees is both perennial and ever changing their shapes and colors transform in every change of season in every sunrise and sunset The New York Botanical Garden is recognized throughout the world for stewardship and connoisseurship of its vast collections some in forests some in groves and some standing in solitary majesty An authority on the diverse species present in the garden Todd Forrest writes vividly about the Garden s past detailing the incredible histories of the trees in the collection from their vital role in Native American life and culture to their wartime function as neutral territory during the Revolutionary War Each tree has a story to tell and just as Forrest gives their collective past words Lederman captures their grandeur in hundreds of stunning images He portrays the diversity of this collection with photographs that reveal the trees in a myriad of fascinating perspectives in landscape views that convey the Garden s *genius loci* portraits illustrating the architecture and profound visual impact of selected trees remarkable details of flowers fruit bark and leaves and impressionistic images abstract in character but beautiful in composition [Tree Lines](#) Valerie P Cohen,Michael P.

Cohen,2017-03-20 Tree Lines unites striking ink drawings of high altitude pine trees with poetic vignettes about how people interact with mountain environments The drawings and text work together to form a direct artistic encounter with timberline conifers The husband and wife team of Valerie and Michael Cohen employ a unique process whereby she draws in isolation gives him her drawings and he then writes whatever he s inspired to create Neither offers the other any kind of feedback or instruction The result is an accessible and deeply engaging work that is also extremely well researched the Cohens bring a lifetime of scholarship in literature history and the environment to this work The drawings are black and white pen and ink representations of high alpine ecosystems The prose is stripped bare abbreviated in an epigrammatic style that is poetic and spontaneous Trees represented here are the Western Juniper or Sierra Juniper the Limber and the Bristlecone Pine three species of long lived slow growing conifers that grow across the Great Basin While they represent only a small portion of the vegetative culture high in the western mountains the Cohens use representation as abstraction as is utilized by writers and artists to convey a unique kind of microcosm of our natural environment This book compares to such classics as Leopold s *A Sand County Almanac* and Berger s *Ways of Seeing* which open up lines of observation analysis and art for a new generation of readers
