*The Freedom of Virtue* Tom Edwards,Cosimo Chiera,2019-05-31 Come on a journey with two travellers not virtuous just trying to be Virtue is not for everyone and many people find their happiness in the green valleys of life But for those of us with a little chutzpah a summit looms high above and time is of the essence What makes a person no matter their background intelligence or resilience stand out from the crowd to display excellence in the art of living It was this question

that led two friends a behavioural neuroscientist turned counsellor and a mathematician both experienced academics and educators to embark on a journey of discovery into the ingredients for human excellence The dish they found is called virtue Virtue sits in the background of daily life yet influences everything we say and do It is about a person's style and substance in spite of their physical strength or intellect Virtue is for us all not only for the strong and the smart So how do we attain a life of excellence amidst a modern world that has provided so many technical advances yet in which we still suffer so much anxiety depression obesity and conflict The authors argue our need to always feel comfortable if not happy has robbed us of achieving excellence in our own lives Taking an evidence based approach they examine research findings from positive psychology anthropology and biology and delve into the tenets of religion and philosophy to identify six virtues which are foundational to our humanity and which orientate each of us to our best lived life Cutting across cultural and religious barriers this unique book provides readers with practical tools in the daily art of living useful to parents teachers mental health professionals community workers and business leaders Create your own clear path to a life of excellence through virtue     *The Hope Reports* University of Oxford.
