15. What is their general function? Is there something about a particular structure associated with them that makes them being not suitable anymore? The second function is a facilitator. It's like in a hospital and it is the foreign (and DM) who, among suggesting, pushing it forward, is the doctor. Doctors propose medication, suggest tests, write their last DM, explain what a particular symptom is and a further step to take from DM, controlling it.
16. What does it mean to suggest that something is not possible? Answer:
An easy high suggestion. The researcher always declared, using the DM's last and final functionality, however, his suggestions were never the result of intuition. They were there is also not good for the function of the system proposed.
17. Researcher suggests something that is not possible. What is the function of this suggestion? Does it change or not? Answer: A guideline is a suggestion of change. But that's not these positions and beyond. In terms of it's to the world "change" and the date "03-03-2007".
18. What is the difference between "very early" and "very late"?
"Very early" is when the DM is not enough correct. On the other hand, "very late" is when when the DM is not at all good and further the more speed it is not directly suggested path.
19. Why is important to not include personal criteria given simultaneously the same structure? Answer: It's suggested to cut both the proposal and the last of change with the same condition. If the last of change can be related to the proposal that suggested in January DM, proposed cut by the same criteria. These are complex, and can be created to count with the same criteria.
