Bad Magic Stephan Zielinski, 2014-01-14 Magic is real Strange forces and uncanny creatures abound Cosmic evil is loose in the world especially around San Diego along with transcendent evil primordial evil simmering evil objective evil and specific evil In sheer self defense most of the human race long ago taught themselves to shut their magical Third Eye blinding themselves to this supernatural world around them As protection goes it's not 100% effective but it's still pretty good If you can't see them they can't see you Fortunately for the rest of us a few people can deal with the weirdness In San Francisco a motley group of adventurers have banded together to fight evil They're an uncanny mix of alchemists thaumaturges necromancers and totemists working their wildly different magics in a milieu where thaumaturgy is a laboratory science and raw pain can be kept in a flask of liquid nitrogen They know they don't know what they're doing And they have to save a world that doesn't know it's under attack from forces that they wish were beyond comprehension Poised headspinning and richly inventive *Bad Magic* from Stephan Zielinski shows us what people really see when their third eye opens At the Publisher's request this title is being sold without Digital Rights
