A Monks Confession The Memoirs Of Guibert Of Nogent:

Monk's Confession ,2010-11-01 A Monk's Confession is the first completely new English translation of Guibert of Nogent's remarkable memoirs in over seventy years. Written around the year 1115 they offer an unparalleled look at the life of a monk in the Middle Ages. Guibert, who lived his entire life in northern France, called these memoirs his book of monodies or solitary songs. Many scholars consider them the first Latin autobiography in the West after Augustine's Confessions. Readers will be stirred and surprised by Guibert's intense preoccupation with the sinfulness of his soul, his visions of demons and necromancy, and his frank struggle to come to terms with his sexuality. But Guibert is also a valuable witness to his age. In addition to his personal history, his memoirs give a brief chronicle of the abbey of Nogent where he served as abbot for some twenty years, and a vivid account of the bloody uprising of the Laon Commune in 1112. His observations give precious insight into education, monastic life, and the beginnings of the great medieval towns. Paul J. Archambault's translation successfully renders Guibert's Latin at times stylish, at times rustic, into lively modern English. He consulted Edmond Ren Labande's authoritative 1981 Latin edition with French translation. He provides a complete introduction and annotation that help situate Guibert within the history and literature of the Middle Ages while permitting readers to judge for themselves how to interpret this fascinating voice from the past. *A Monk's Confession* Guibert (Abbot of Nogent-sous-Coucy), 1996 **Life**

in the Medieval Cloister Julie Kerr, 2009-07-14 **Philosophy** **The Evangelical Conversion Narrative** D. Bruce Hindmarsh, 2005-03-18 In the seventeenth and eighteenth centuries thousands of ordinary women and men experienced evangelical conversion and turned to a certain form of spiritual autobiography to make sense of their lives. This book traces the rise and progress of conversion narrative as a unique form of spiritual autobiography in early modern England. After outlining the emergence of the genre in the seventeenth century and the revival of the form in the journals of the leaders of the Evangelical Revival, the central chapters of the book examine extensive archival sources to show the subtly different forms of narrative identity that appeared among Wesleyan Methodists, Moravians, Anglicans, Baptists, and others. Attentive to the unique voices of pastors and laypeople, women and men, Western and non-Western peoples, the book establishes the cultural conditions under which the genre proliferated. *Renaissance and Renewal in the Twelfth Century* Robert L.

Benson, Giles Constable, Carol Dana Lanham, Charles Homer Haskins, 1991-01-01 Twenty-seven authors approach the diverse areas of the cultural, religious, and social life of the twelfth century. These essays form a basic resource for all interested in this pivotal century. A reprint of the first edition first published in 1982. *The Historical Present* Walter Kudrycz, 2011-01-13 Medievalism has become a central concern for those studying and teaching medieval history. It can be distinguished from traditional medieval history because it is not directly concerned with the study of the Middle Ages themselves but rather it looks at how ideas about the medieval era operate in modern culture. This volume breaks new ground by moving beyond the arena of contemporary popular culture by interpreting modern academic attitudes towards the Middle Ages as themselves

forms of medievalism What is presented as refined historical truth is no more than a construction of truth derived from the larger philosophical and cultural trends of our own day This volume argues that modernity's sense of the medieval past is the product of the dominant intellectual movements of the nineteenth century Romanticism and Idealism and that nineteenth century attitudes have continued to inform current understandings of the Middle Ages This is a narrative that combines the main themes of modern scholarship on the medieval age with a subtly portrayed picture of the philosophical culture which produced them

Foundation Documents from St Mary's Abbey, York, 1085-1137 Janet Burton, Michael Gullick, Nicholas Karn, 2022 In the wake of the Conqueror's ravaging of the North in the course of the rebellion and Danish invasion of 1069-70 the devastated city of York had to be largely rebuilt The Conqueror himself contributed a major new abbey built in the west of the city no doubt in a spirit of penitence for the wasting of the city and county carried out by his troops The community's origins were not straightforward Around 1085 the community was adopted by the king and translated to the western quarter of York to a site which had previously been the burh of the earl of Northumbria The Conqueror made a creative use of the new Norman elite of Yorkshire to endow and secure the new abbey an enterprise adopted and extended by his son William II Rufus in 1088 This study uncovers in meticulous detail the manoeuvres of the king the abbot and the aristocracy of Yorkshire as each looked to make spiritual and political capital out of the grand new royal foundation

Romanesque Vézelay Kirk Thomas Ambrose, 1999 Fallen Bodies Dyan Elliott, 1999 Medieval clerics believed that original sin had rendered their fallen bodies vulnerable to corrupting impulses particularly those of a sexual nature They feared that their corporeal frailty left them susceptible to demonic forces bent on penetrating and polluting their bodies and souls Drawing on a variety of canonical and other sources Fallen Bodies examines a wide ranging set of issues generated by fears of pollution sexuality and demonology To maintain their purity celibate clerics combated the stain of nocturnal emissions married clerics expelled their wives onto the streets and out of the historical record an exemplum depicting a married couple having sex in church was told and retold and the specter of the demonic lover further stigmatized women's sexuality Over time the clergy's conceptions of womanhood became radically polarized the Virgin Mary was accorded ever greater honor while real corporeal women were progressively denigrated When church doctrine definitively denied the physicality of demons the female body remained as the prime material presence of sin Dyan Elliott contends that the Western clergy's efforts to contain sexual instincts and often the very thought and image of woman precipitated uncanny returns of the repressed She shows how this dynamic ultimately resulted in the progressive conflation of the female and the demonic setting the stage for the future persecution of witches

Europe and the Middle Ages Edward Peters, 2004 For one two semester undergraduate courses in Medieval History This comprehensive well balanced historical survey of Medieval Europe from Roman imperial provinces to the Renaissance covers all aspects of the history political literary religious intellectual etc with a focus on social and political themes It presents a complete picture of the complex process by which an

ecumenical civilization that once ringed the basin of the Mediterranean Sea evolved into three other distinctive civilizations Latin Europe Greek Eastern Europe and Asia Minor and Islam This text differs from others on the subject in that it attempts to abolish traditional clichés regarding the Middle Ages and promotes critical thinking about our own time and society
