A Republic Not An Empire Reclaiming Americas Destiny:

A Republic, Not an Empire Patrick J. Buchanan, 2002-02-01 All but predicting the September 11 attacks Pat Buchanan warns that America is inviting terrorist attacks and conflict by engaging in an interventionist foreign policy that is costly dangerous and does not serve our own interests Why America Is Not a New Rome Vaclav Smil, 2010-01-29 An investigation of the America Rome analogy that goes deeper than the facile comparisons made on talk shows and in glossy magazine articles America's post Cold War strategic dominance and its pre recession affluence inspired pundits to make celebratory comparisons to ancient Rome at its most powerful Now with America no longer perceived as invulnerable engaged in protracted fighting in Iraq and Afghanistan and suffering the worst economic downturn since the Great Depression comparisons are to the bloated decadent ineffectual later Empire In Why America Is Not a New Rome Vaclav Smil looks at these comparisons in detail going deeper than the facile analogy making of talk shows and glossy magazine articles He finds profound differences Smil a scientist and a lifelong student of Roman history focuses on several fundamental concerns the very meaning of empire the actual extent and nature of Roman and American power the role of knowledge and innovation and demographic and economic basics population dynamics illness death wealth and misery America is not a latter day Rome Smil finds and we need to understand this in order to look ahead without the burden of counterproductive analogies Superficial similarities do not imply long term political demographic or economic outcomes identical to Rome's

Globocop: How America Sold Its Soul and Lost Its Way Mark David Ledbetter, 2004-10-24 The first post 9 11 election gave us a choice between two big government high tax globocops quibbling over the details not an alternative to the aggressive international militarism that makes us the natural and logical target of terrorism This book looks at the progression from republic protected by militia to empire protected by standing armies in Athens and Rome and the similar progression in America It looks at an alternative The Swiss way which has kept Switzerland free and republican for 700 years in the center of a warlike continent America once understood and followed Washington's Great Rule and J Q Adams admonition not to go out into the world in search of monsters to destroy We were then the light not the sword of freedom Now we have picked up the sword only to see the light grow dimmer year by year Conservatism in America Since 1930

Gregory L. Schneider, 2003-06 Presents forty essays speeches and other documents on conservatism or by conservatives spanning 1930 to the turn of the century including works by Seward Collins Barry Goldwater William F Buckley Jr Irving Kristol Ronald Reagan Newt Gingrich and others **The Globalization of International Law** Paul Schiff

Berman, 2017-07-05 International law is no longer a sufficient rubric to describe the complexities of law in an era of globalization Accordingly this collection situates cross border norm development at the intersection of interdisciplinary scholarship on comparative law conflict of laws civil procedure cyberlaw legal pluralism and the cultural analysis of law as well as traditional international law It provides a broad range of seminal articles on transnational law making governmental

and non governmental networks judicial influence and cooperation across borders the dialectical relationships among national international and non state legal norms and the possibilities of bottom up and plural law making processes The introduction situates these articles within the framework of law and globalization and suggests four important ways in which such a framework enlarges the traditional focus of international law This book therefore provides a crucial reference for scholars and practitioners seeking to understand the varied processes of norm development in the emerging global legal order

Non-State Actors and International Law Andrea Bianchi, 2017-03-02 The expression non state actors has become part and parcel of the common parlance of international lawyers Together with the traditional subjects of international law such as states and international organizations non state actors play an important role in international law making law adjudication and law enforcement processes Although the subjects actors discourse takes place in a variety of contexts most of the time the relevant narrative merely describes how different actors participate in the legal process in any given area Little attention has been drawn to the theoretical discourse about non state actors and its relation to the doctrine of the subjects of international law Whether the solution lies in relativizing the subjects or rather in subjectivizing the actors remains open to doubt The constant swing of the pendulum from the normative to the descriptive mesmerizes the observer but hardly hides the struggle for determining who may legitimately and authoritatively perform legally relevant acts on the international scene

The European Union in the Security of Europe Steve Marsh, Wyn Rees, 2012-03-12 This book examines the European Union's contribution to providing security in Europe amidst an increasingly complex and challenging environment In this new and comprehensive guide to the EU's role in security since the end of the Cold War the authors offer an explanation of EU internal and external security regimes and argue that the Union has become an important exporter of security within its region However the Union's rhetorical ambitions and commitments continue to outstrip its capabilities and it lacks both a common conceptualisation of security and a meaningful shared strategic culture Drawing extensively on primary sources the book examines the Union's relations with the US and Russia in a time of shifting geostrategic calculations and priorities With the EU capacity for enlargement slowing this text presents a detailed assessment of EU security policies towards Central Europe the Mediterranean the Western Balkans Eastern Europe and South Caucasus European Union Security will be of interest to students and scholars of the EU security studies and international relations

Aligning Ends, Ways, and Means D. Robert Worley, 2011-12-08 After four decades of relative stability in national security strategy American behavior has been erratic in search of a new and sustainable role on the world stage Rather than facing an ideologically driven great power alliance the new threat appears to be emanating from failed or failing states And rather than preparing to deter and if necessary defeat a military super power the United States has entered into long costly and uncertain nation building efforts that are falling out of favor with the American public facing a deep recession Nation building efforts in Iraq and Afghanistan have exposed an imbalance in the capabilities of the departments and agencies and

an inability to achieve a unity of effort a whole of government effort High level commissions recommend a reallocation of resources to achieve a new balance in the instruments of power and major reorganizations to affect a better orchestration of the instruments Others are completely redefining national security Traditionally threats to national security were military problems with military solutions What were considered issues of foreign policy including pandemics and environmental degradation are increasingly cast as national security matters They are not military problems with military solutions A national security strategy aligns ends ways and means Finding a new alignment must take place in an environment of a deep and wide recession partisan gridlock and uncertainty about the very meaning of national security This book presents the reader with the information necessary to engage in an informed debate on national security strategy and the system that supports it *Chronicles* ,2000 *America, History and Life* ,2004 Article abstracts and citations of reviews and dissertations covering the United States and Canada **The Threats to America** Patrick J.
