Walter Benjamin and the Aesthetics of Film Daniel Mourenza,2025-10-01 Walter Benjamin is today regarded as one of the leading thinkers of the twentieth century Often captured in pensive pose his image is now that of a serious intellectual But Benjamin was also a fan of the comedies of Adolphe Menjou Mickey Mouse and Charlie Chaplin As an antidote to repressive civilization he developed through these figures a theory of laughter Walter Benjamin and the Aesthetics of Film is the first monograph to thoroughly analyse Benjamin s film writings contextualizing them within his oeuvre whilst also paying attention to the various films actors and directors that sparked his interest The book situates all these writings within Benjamin s anthropological materialism a concept that analyses the transformations of the human sensorium through technology Through the term innervation Benjamin thought of film spectatorship as an empowering reception that through a rush of energy would form a collective body within the audience interpenetrating a liberated technology into the distracted spectators Benjamin s writings on Soviet film and German cinema Charlie Chaplin and Mickey Mouse are analysed in relation to this posthuman constellation that Benjamin had started to dream of in the early twenties long before he began to theorize about films *The Animation Studies Reader* Nichola Dobson,Annabelle Honess Roe,Amy Ratelle,Caroline

Ruddell,2018-10-18 The Animation Studies Reader brings together both key writings within animation studies and new material in emerging areas of the field The collection provides readers with seminal texts that ground animation studies within the contexts of theory and aesthetics form and genre and issues of representation The first section collates key readings on animation theory on how we might conceptualise animation and on some of the fundamental qualities of animation New material is also introduced in this section specifically addressing questions raised by the nature style and materiality of animation The second section outlines some of the main forms that animation takes which includes discussions of genre Although this section cannot be exhaustive the material chosen is particularly useful as it provides samples of analysis that can illuminate some of the issues the first section of the book raises The third section focuses on issues of representation and how the medium of animation might have an impact on how bodies gender sexuality race and ethnicity are represented These representations can only be read through an understanding of the questions that the first two sections of the book raise we can only decode these representations if we take into account form and genre and theoretical conceptualisations such as visual pleasure spectacle the uncanny realism etc **Mickey & Friends: Goofy at Bat** Susan
