Douglas Clayton, Yana Meerzon, 2013 This book considers the hundred years of rewrites of Anton Chekhov's work presenting a wide geographical landscape of Chekhovian influences in drama The volume examines the elusive quality of Chekhov's dramatic universe as an intricate mechanism an engine in which his enigmatic characters exist as the dramatic and psychological ciphers we have been decoding for a century and continue to do so Examining the practice and the theory of dramatic adaptation both as intermedial transformation from page to stage and as intramedial mutation from page to page the book presents adaptation as the emerging genre of drama theatre and film This trend marks the performative and social practices of the new millennium highlighting our epoch's need to engage with the history of dramatic forms and their evolution The collection demonstrates that adaptation as the practice of transformation and as a rethinking of habitual dramatic norms and genre definitions leads to the rejuvenation of existing dramatic and performative standards pioneering the creation of new traditions and expectations As the major mode of the storytelling imagination adaptation can build upon and drive the audience's horizons of expectations in theatre aesthetics Hence this volume investigates the original and transformative knowledge that the story of Chekhov's drama in mutations offers to scholars of drama and performance to students of modern literatures and cultures and to theatre practitioners worldwide     **The Art of Artificial Intelligence** Alice Barale, 2024-10-22 What is artificial intelligence to us today This book tackles this question from a somewhat unique perspective that of art The starting hypothesis is that art can provide an example of how we can engage with artificial intelligence without being subjugated by it The Art of Artificial Intelligence Philosophical Keywords guides the reader through a theoretical journey that begins each time with a particular work of art visual artworks but also literary texts and theatrical performances Each chapter is anchored by a philosophical keyword work author time memory human What meanings do these words take on in light of these new practices The book is aimed at a broad audience including anyone who feels the need to reflect on these new questions It will also be an essential resource for students and university faculty in various disciplines from philosophy to media studies from art history to visual culture     **Essays in Poetics** , 2006     Wiener slawistischer Almanach , 2014
