Ingenious Women:

Ingenious Women Deborah Jaffé, 2003 This delightfully illustrated book examines inventions and discoveries made by women beginning with the first patent application made in 1637 and ending with the outbreak of war in 1914 Lively accounts of the stories of the inventions are placed into the context in which their discoveries were made and the struggle they had to acquire patents and put their inventions into production In covering this previously obscure part of women s lives the practical way in which women have made an enormous contribution to social change and scientific advance is revealed

Kesselring,Matthew Neufeld,2024-09-15 Bringing together essays on uses of history as both a practical activity and an approach to thinking about the present this collection explores ways in which people have reckoned with history in pasts both distant and near Reckoning with History begins by examining uses of the past in early modern Britain a period in which print religious reformation and political conflict transformed historical culture Later essays offer insights into personal popular professional and sometimes deeply political uses of the past in other times and places helping to contextualize our own moments in historical writing and to link the early and post modern periods Throughout contributors respond to the writings of Daniel Woolf whose scholarship illuminates the history of the historical discipline and the social circulation of the past Covering subjects such as early archival practices memories of historic plagues and the type of commemorations needed to revitalize liberal democracies Reckoning with History contextualizes the uses of the past today Ladies' Home Journal ,1889 **Women's Writing and the Circulation of**

Ideas George Justice, Nathan Tinker, 2002-03-07 It was widely believed that women in Renaissance and early modern England either did not write or did not publish their work It has become clear that instead of using the emerging technology of print many women writers circulated their works by hand with friends copying and recopying poems plays and novels from each other or with the help of professional scribes Through manuscript publication women s writing reached wide audiences and was collected and admired by both men and women Women s Writing and the Circulation of Ideas contributes to the discovery and re evaluation of women writers by examining the writing and manuscript publication of key authors from 1550 to 1800 The collection s analysis of the range and meaning of women s writing and manuscript publication during the rise of the print industry alters our understanding of the history of the book and early modern British literature alike [Cassier's Magazine](#) ,1909 *Women and Missions* Lucia P.
