Judy Reinhartz, 2015-03-25 *Foster life long teacher learning embedded in effective teaching practices and the science standards*. Science is a natural motivator and an academic engine for utilizing language but it is the teacher who is the key to fostering the innate curiosity in each learner. *Growing Language Through Science* offers a model for contextualizing language and promoting academic success for all students, particularly English learners, in the K-5 science classroom through a highly effective approach that integrates inquiry based science lessons with language rich hand on experiences. You'll find a wealth of instructional tools to support and engage students with links to the Next Generation Science Standards NGSS Presentation and assessment strategies that accommodate students' diverse needs while encouraging them to use communicative language speaking, listening, reading, and writing. Ready to use templates and illustrations to enrich the textual discussion. Field tested teaching strategies framed in the 5Es used in monolingual and bilingual classrooms.
