Production Management and Business Development Bohuslava Mihalčová, Petra Szaryszová, Lenka Štofová, Michal Průžinský, Barbora Gontkovičová, 2018-12-07 Trends in economic development rely on increasing human knowledge which stimulate the development of new sophisticated technologies. With their utilization production is raised and the intent is to decrease natural resources consumption and protect and save our life environment as much as we can. At the same time increasing pressure is observed both from competition and customers. The way to be competitive is by improving manufacturing and services offered to the customer. These are the major challenges of contemporary enterprises. Organizations are improving their activities and management processes. This is necessary to manage the seemingly intensifying competitive markets successfully. Enterprises apply business optimizing solutions to meet new challenges and conditions. This way ensuring effective development for long term competitiveness in a global environment. This is necessary for the implementation of qualitative changes in the industrial policy. Process Control and Production Management MTS 2018 is a collection of research papers from an international authorship. The authors present case studies and empirical research which illustrates the progressive trends in business process management and the drive to increase enterprise sustainability development.
