## **Labyrinths Robert Morris Minimalism And The 1960s:**

**Labyrinths** Maurice Berger,1989 Om den amerikanske billedhugger som er en af de ledende repr sentanter for minimal art **Labyrinths** Maurice Berger,1990-05-01 Traces the career of the American sculptor discusses the philosophical foundations of the work and presents examples of his sculptures installations and environments **Minimalism** James Meyer,James Sampson Meyer,2004-01-01 Critic and art historian Meyer a leading authority on Minimalism examines the style from its inception to its broader cultural influence This sourcebook features an excellent selection of nearly 300 color and b w images to illustrate the surprising variety of the work **Against Ambience and Other Essays** Seth Kim-Cohen,2016-03-10 Against Ambience diagnoses in order to cure the art world s recent turn toward ambience Over the course of three short months June to September 2013 the four most prestigious museums in New York indulged the ambience of sound and light James Turrell at the Guggenheim Soundings at MoMA Robert Irwin at the Whitney and Janet Cardiff at the Met In addition two notable shows at smaller galleries indicate that this is not simply a major donor movement Collectively these shows constitute a proposal about what we wanted from art in 2013 While we re in the soft embrace of light the NSA and Facebook are still collecting our data the money in our bank accounts is still being used to fund who knows what without our knowledge or consent the government we elected is still imprisoning and targeting people with whom we have no beef We deserve an art that is the equal of our information age Not one that parrots the age s self assertions or modes of dissemination but an art that is hyper aware vigilant active engaged and informed We are now one hundred years clear of Duchamp s first readymades So why should we find ourselves so thoroughly in thrall to ambience Against Ambience argues for an art that acknowledges its own methods and intentions its own position in the structures of cultural power and persuasion Rather than the warm glow of light or the soothing wash of sound Against Ambience proposes an art that cracks the surface of our prevailing patterns of encounter initiating productive disruptions and deconstructions **Reclaiming Female Agency** Norma Broude,Mary D. Garrard,2005-04-11 Reclaiming Feminine Agency identifies female agency as a central theme of recent feminist scholarship offers 23 essays on artists issues from the Renaissance to the present written in the 1990s after **Systems We Have Loved** Eve Meltzer,2013-07-02 By the early 1960s theorists like L vi Strauss Lacan Foucault and Barthes had created a world ruled by signifying structures and pictured through the grids of language information and systems Artists soon followed turning to language and its related forms to devise a new conceptual approach to art making Examining the ways in which artists shared the structuralist devotion to systems of many sorts Systems We Have Loved shows that even as structuralism encouraged the advent of conceptual art it also raised intractable problems that artists were forced to confront Considering such notable art figures as Mary Kelly Robert Morris Robert Smithson and Rosalind Krauss Eve Meltzer argues that during this period the visual arts depicted and tested the far reaching claims about subjectivity espoused by theorists She offers a new way of framing two of the twentieth century s most transformative

movements one artistic one expansively theoretical and she reveals their shared dream or nightmare of the world as a system of signs By endorsing this view Meltzer proposes these artists drew attention to the fictions and limitations of this dream even as they risked getting caught in the very systems they had adopted The first book to describe art's embrace of the world as an information system *Systems We Have Loved* breathes new life into the study of conceptual art **Minimal Art and Artists in the 1960s and After** Laura Garrard,2007 All the main practitioners and theoreticians of the still influential 1960s Minimal art are studied here including Frank Stella Robert Ryman Dan Flavin and Eva Hesse Chapters include Minimal aesthetics Minimal painting and painters and Minimal art and land artists **Art Workers** Julia Bryan-Wilson,2009 From artists to art workers Carl Andre's work ethic Robert Morris's art strike Lucy Lippard's feminist labor Hans Haacke's paperwork **Minimalism DesignSource** Encarna Castillo,2004-09-28 The term Minimalism has not always been used in a favorable sense especially in architecture and even today it may be the cause of some confusion and ambiguity The problem comes from the word's use in defining a creative current school or trend when in fact it refers to an aesthetic At the same time this aesthetic is not chronologically well defined either and moreover interacts with different disciplines This explains why we find minimalist buildings in periods very far apart from each other and in architects as different as Tadao Ando Eduardo Souto de Moura Jacques Herzog Pierre de Meuron or Luis Barragán among others **Minimalism DesignSource** investigates the minimalism movement covering the last years of the decade of the 1990s and the first years of the twenty first century to inquire into the origins of the term minimalism and in how the minimalism phenomenon played out in other fields like art painting fashion and sculpture has affected minimalism in architecture define the result of the use of pure and simple lines the reduction of language elements and as far as architecture is concerned the investigation of the treatment of space and of building possibilities **Depiction and Interpretation** Ziva Amishai-Maisels,1993 A study of the extent to which the Holocaust as a major historical event influenced Western art Pt I pp 3-127 Depiction discusses many artists and their works Pt II pp 131-366 Interpretation analyzes primary Holocaust symbols biblical imagery the crucified Jew myths abstraction and Jewish identity Pp 367-509 contain notes to the above chapters and pp 511-546 give an extensive selected bibliography The plates contain reproductions of 560 paintings and drawings **Traversing the Rough Ground, 1965-1975** Dana Michelle Slesinger,1999 **Robert Morris and Angst** Nena Tsouti-Schillinger,2001 Both as an artist and as a theorist Robert Morris b 1931 has challenged prevailing ideas about art and culture He is best known as the father of Minimal Art His contributions to virtually every postwar movement since Abstract Expressionism are significant However he has remained independent of any particular affiliation Morris has produced art ranging from choreographed dances performances audio and video recordings depicting the processes of his artmaking itself to sculptures installations paintings prints and site specific outdoor projects in Europe and America while regularly adding to a body of influential critical writings His enduring interest in the process of artmaking materiality and perception has channeled his investigations into a

multiplicity of media types and art forms which is indeed remarkable Robert Morris and Angst examines the thematic and artistic consistency found throughout Morris's art despite its visual diversity Within the context of a representative number of his works Nena Tsouti Schillinger breaking new ground investigates Morris's angst and the underlying related idea of dualism Throughout Morris's twists and turns his works share a common core he keeps transforming his lifelong subject physical and mental conflict with a remarkable physical immediacy Whether revered or reviled idolized or misunderstood Morris has transformed the face of modern art and the philosophy behind it 47 color illustrations 53 black and white illustrations index bibliography

**The 1980s**

Maurice Berger, 2007 In his introduction to The 1980s An Internet Conference moderator Maurice Berger writes As Fredric Jameson reminds us in his essay Periodizing the 1960s decades are never neat clearly defined episodes Their boundaries are porous their roots long their implications far reaching their stories a jumble of events that historical orthodoxy all too easily erases overestimates or devalues For the purposes of this conference then The 1980s serves as an historical hook a convenient means for focusing on a constellation of events sensibilities cultural objects methodologies and social movements that took form in the United States in the era roughly between the late 1970s and early 1990s Contributors include Alexander Alberro Max Becher Dan Cameron Mary Kelly Wayne Koestenbaum David A Ross Irving Sandler Carolee

Schneemann Carol Squiers Oliver Wasow Linda Yablonsky and others

Minimalism--origins Edward Strickland, 1993 The term Minimalism appeared in the mid 1960s primarily with reference to the stripped down sculpture of artists like Donald Judd This volume investigates the origins of Minimalism in post war American culture The author redefines it as a movement that developed reductive stylistic innovations

**Andrea Robbins and Max Becher** Maurice Berger, 2008 This exhibition and catalog present the first examination of the portrait photographs of Andrea Robbins and Max Becher The artists portraits like their radical landscapes and city scenes are powerfully evocative boldly subverting our expectations of the discipline of portraiture Rather than capturing the visual essence of a sitter they reveal identity to be multifarious transitive and culturally and historically bound Robbins and Becher capture their subjects in ways that transform enhance and accentuate social and cultural meaning They do so with the full complicity and respect of the people they photograph They spend weeks living with each community they document They immerse themselves in the stories of its citizens and history They interview its residents and participate in their rituals and customs They photograph them in various active stages of work play and home life Most important they allow their subjects to represent themselves not only as they would like to be seen but also in ways that illuminate the complexity of their humanity By seeing identity as volatile mutable and contingent these improbable

portraits remind us that who we are is as much a matter of choice as destiny BOOK JACKET *Andy Warhol* Jonathan P. Binstock, *Andy Warhol*, Maurice Berger, Trevor J. Fairbrother, 2000 Published on the occasion of an exhibition organized by the Pennsylvania Academy of the Fine Arts Philadelphia Pa June 17 through September 21 2000 *Masterplan* Peter Johannes Schneemann, 2003 Dieser Band versammelt die Beiträge von zw lf Wissenschaftlerinnen und Wissenschaftlern die am internationalen Kolloquium Masterplan Konstruktion und Dokumentation amerikanischer Kunstgeschichten im April 2000 in der Villa Mettlen in Muri bei Bern teilnahmen Thema ist die Geschichtsschreibung amerikanischer Kunst und die Problematik historiographischer Paradigmen Die Beiträge reflektieren aus aktuellen Blickwinkeln europäische und amerikanische Muster der Identitätssuche im 19 und 20 Jahrhundert Anhand bekannter Künstler wie Paul Cézanne Joseph Cornell oder Allan Kaprow werden die Mechanismen der Biographik und Rezeptionsgeschichten demonstriert Diskurse um Technik Gattungen und Wertvorstellungen erweisen sich als prägende Modelle unserer Vorstellungen von der Entwicklung der amerikanischen Kunstszene
