L'architecture Considérée Sous Le Rapport De L'art Des Mœurs Et De La Législation 2 Vols:

A Treatise on the Decorative Part of Civil Architecture Sir William Chambers, 1862 Claude-Nicolas Ledoux
Anthony Vidler, 2021-08-02 Claude Nicolas Ledoux 1736 1806 is today regarded as chief representative of French revolutionary architecture With his extraordinary inventiveness he projected the architectural ideals of his era Ledoux's influential buildings and projects are presented and interpreted both aesthetically and historically in this book His best known projects the Royal Saltworks of Arc et Senans the tollgates of Paris the ideal city of Chaux reveal the architect's allegiance to the principles of antiquity and Renaissance but also illustrate the evolution of his own utopian language With the French Revolution Ledoux ceased building as his contemporaries perceived him as a royal architect He focused on the development of his architectural theory and redefined the vision of the modern architect **Echo's Chambers** Joseph L. Clarke, 2021-06-08 A room's acoustic character seems at once the most technical and the most mystical of concerns Since the early Enlightenment European architects have systematically endeavored to represent and control the propagation of sound in large interior spaces Their work has been informed by the science of sound but has also been entangled with debates on style visualization techniques performance practices and the expansion of the listening public Echo's Chambers explores how architectural experimentation from the seventeenth through the mid twentieth centuries laid the groundwork for concepts of acoustic space that are widely embraced in contemporary culture It focuses on the role of echo and reverberation in the architecture of Pierre Patte Claude Nicolas Ledoux Carl Ferdinand Langhans and Le Corbusier as well as the influential acoustic ideas of Athanasius Kircher Richard Wagner and Marshall McLuhan Drawing on interdisciplinary theories of media and auditory culture Joseph L. Clarke reveals how architecture has impacted the ways we continue to listen to talk about and creatively manipulate sound in the physical environment **Histoire de l'art: L'art en Europe au XVIII^e siècle** André Michel, 1924 **An Encyclopaedia of Architecture, Historical, Theoretical, and Practical** Joseph Gwilt, 1876 First Proofs of the Universal Catalogue of Books on Art National Art Library (Great Britain), 1870 *The First Proofs of the Universal Catalogue of Books on Art: L-Z* John Hungerford Pollen (S.J.), 1870 **Universal Catalogue of Books on Art: L to Z** National Art Library (Great Britain), 1870 **Stagestruck** Lauren R. Clay, 2013-02-15 Stagestruck traces the making of a vibrant French theater industry between the reign of Louis XIV and the French Revolution During this era more than eighty provincial and colonial cities celebrated the inauguration of their first public playhouses These theaters emerged as the most prominent urban cultural institutions in prerevolutionary France becoming key sites for the articulation and contestation of social political and racial relationships Combining rich description with nuanced analysis based on extensive archival evidence Lauren R. Clay illuminates the wide ranging consequences of theater's spectacular growth for performers spectators and authorities in cities throughout France as well as in the empire's most important Atlantic colony Saint Domingue Clay argues that outside Paris the expansion of theater came about through local initiative civic engagement and entrepreneurial

investment rather than through actions or policies undertaken by the royal government and its agents. Reconstructing the business of theatrical production she brings to light the efforts of a wide array of investors, entrepreneurs, directors, and actors, including women and people of color who seized the opportunities offered by commercial theater to become important agents of cultural change. Portraying a vital and increasingly consumer-oriented public sphere beyond the capital, Stagestruck overturns the long-held notion that cultural change flowed from Paris and the royal court to the provinces and colonies. This deeply researched book will appeal to historians of Europe and the Atlantic world, particularly those interested in the social and political impact of the consumer revolution and the forging of national and imperial cultural networks. In addition to theater and literary scholars, it will attract the attention of historians and sociologists who study business, labor history, and the emergence of the modern French state.

For writers such as John Hector St. John de Crèvecoeur and Claude François de Lezay-Marnézia, America was never more potent as a driving ideal than in its loss. Examining the paradoxical American paradise depicted in Crèvecoeur's *Lettres d'un cultivateur américain* (1784), the *Uchronotopia*, the imaginary perfect society set in America and based on what France might have become without the Revolution, and Lezay-Marnézia's *Lettres critiquées des rives de l'Ohio* (1792) and the political and nationalistic motivations behind François René Chateaubriand's idealization of America in *Voyage en Amérique* (1827) and *Mémoires d'outre-tombe* (1850), Hoffmann shows how the authors' liberties with the truth helped create the idealized and nostalgic representation of America that dominated the collective European consciousness of their times. From a historical perspective, *Posthumous America* works to determine when exactly these writers stopped transcribing what they actually observed in America and started giving imaginary accounts of their experiences. A vital contribution to transatlantic studies, this detailed exploration of French perspectives on the colonial era, the War of Independence, and the birth of the American Republic sheds new light on the French fascination with America. *Posthumous America* will be invaluable for historians, political scientists, and specialists of literature whose scholarship looks at America through European eyes.
