10 of 10

- Explain the relationship between the two entities within a database containing the information.
 - An entity-relationship model defines relationships between data entities.
- Explain how business rules are used to define an entity's valid data.
 - They restrict data that is being stored in the table to comply with normal constraints.
- Explain the importance of constraints when defining data tables.
 - The rules governing entities and their data characteristics define a specific entity's valid data conditions.

10 of 10

1. What do Penitentiary inmates think about their education? What do they think about the quality of their education received? Penitentiary school facilities?

- policy issues and the various educational options available to them

2. What roles do the Penitentiary Facility Directors believe are important for the Penitentiary to support their inmates?

- Financial and Resources

3. What have been the challenges to improving the quality of education available to inmates in the past? What are the challenges now?

4. What do the administrators of education consider their schools like? How do Penitentiary facilities compare to other prisons?

- good for education, but not necessarily from an educational perspective. However, they are good for security, but not necessarily for education.
