Market and Competition Authorities Annetje Ottow, 2015-03-26 Market and competition authorities operate in a complex environment with conflicting stakeholder demands. Balancing the various interests of the authority and stakeholder in an objective and impartial manner is strategic to achieving the goals of the legislation imposed. In a fresh approach examining the actions of an authority when a regulation is applied, Annetje Ottow argues the vital importance of the behaviour of authorities focusing on five fundamental good agency principles: legality, independence, transparency, effectiveness, and responsibility. LITER: These principles provide agencies and those reviewing their actions with a framework for agency design and action. Combining theory and practice to provide insight into agencies' organization and behaviour, this book outlines and analyses behavioural issues using an ecosystemic method, addressing how independent agencies should be assessed and which principles should apply. Using cases from the Netherlands and the UK, Ottow examines the key processes of authorities against the LITER principles and opens the debate on how to regulate the agency.

India's Great Power Politics Jo Inge Bekkevold, S. Kalyanaraman, 2020-12-22 This book examines India's foreign and defence policy changes in response to China's growing economic and military power and increased footprint across the Indo-Pacific. It further explores India's role in the rivalry between China and the United States. The book looks at the strategic importance of the Indian Ocean Region in the Indo-Pacific geopolitical landscape and how India is managing China's rise by combining economic cooperation with a wide set of balancing strategies. The authors in this book critically analyse the various tools of Indian foreign policy, including defence posture, security alignments, and soft power diplomacy, among others, and discuss the future trajectory of India's foreign policy and the factors which will determine the balance of power in the region and the potential risks involved. The book provides detailed insights into the multifaceted and complex relationship between India and China and will be of great interest to researchers and students of international relations, Asian studies, political science, and economics.
