## **Boatbuilding Manual:**

**Boatbuilding Manual** Robert M. Steward, Robert Steward, 1993-12 Boatbuilding Manual is one of the most widely read texts on the subject and it has been used for years as a standard reference at both boatbuilding and design schools. A builder and designer for more than 55 years Robert Steward has rare abilities as a writer and draftsman. His phrasing is clear and easy and he writes the absolute minimum necessary for a complete understanding of the subject. This fourth edition like its predecessors emphasizes traditional wooden construction but also surveys plywood, wood, epoxy, fiberglass, steel, aluminum and other boatbuilding methods. The chapters on interpreting plans, lofting and moldmaking are common to all methods. New to this edition are several chapters arising from the Miscellaneous Details chapter of earlier editions: an appendix on sharpening tools, expanded tables of metric equivalents, an expanded and annotated source guide for plans, fasteners, hardware, wood and other staples of boatbuilding, and a list of additional reading. Praise for Boatbuilding Manual: the best building manual for wooden boats there is, clear, concise but inclusive and written so the inexperienced boatbuilder can read it. John Gardner, Mystic Seaport Museum. I first got acquainted with the Boatbuilding Manual in the early 1970s when Murray Peterson, the yacht designer, gave me a copy, saying, 'Read this. It's the best book on small boat building I've ever seen.' I had to agree and it's still true. Steward's book is in a class of its own. It's the book I always recommend for boatbuilding classes and we've used it to fine advantage at the local high school, Sonny Hodgdon, Hodgdon Yachts Inc, East Boothbay, Maine. This is a book at home in the workshop, not the library. Pulled from beneath a pile of shavings, it is the thing to help make a tough decision or to quiet an unwelcome adviser. SAIL

**Boatbuilding Manual, Fifth Edition** Robert M. Steward, Carl Cramer, 2010-12-10 Get the latest boatbuilding tips from this updated classic. Since its first publication in 1970, Boatbuilding Manual has become the standard reference in boatbuilding and boat design schools, in the offices of professional builders and in the basement workshops of home builders. No other boatbuilding text has simultaneously served the disparate needs of professional and amateur audiences so successfully. Carl Cramer, the publisher of WoodenBoat and Professional Boatbuilder magazines, has fully updated this fifth edition with the latest in boatbuilding techniques and developments. Includes: The latest wood, epoxy, construction methods that make amateur building more successful than ever before. Recommendations on products and materials saving you time and money, substantial time and expense. Topics include: Plans, Tools, Woods, Fiberglass and Other Hull Materials, Fastenings, Lines and Laying Down, Molds, Templates and the Backbone, Setting Up, Framing, Planking, Deck Framing, Decking, Deck Joinerwork, Interior Joinerwork, Finishing, Sailboat, Miscellany, Steering, Tanks, Plumbing, etc. Mechanical and Electrical Potpourri, Safety.

**Clinker Plywood Boatbuilding Manual** Iain Oughtred, 2000-03 After a successful career in centreboard racing dinghies, Ian Oughtred became one of the leading lights of the British wooden boat revival, designing, building and sailing many remarkable craft. These boats have gained a world wide reputation for their elegance of line, sound construction and excellent sailing performance. His perfectionist approach may be unbusinesslike but

provides highly refined designs and detailed plans In this he hopes to encourage a return to a deep appreciation of traditional values of craftsmanship believing this is the vital part of the true education and thus helps to nourish the human spirit in an impoverished age
