Body And Soul Notebooks Of An Apprentice Boxer:

Body & Soul Loïc J. D. Wacquant, 2004 When French sociologist Loïc Wacquant signed up at a boxing gym in a black neighborhood of Chicago's South Side he had never contemplated getting close to a ring let alone climbing into it Yet for three years he immersed himself among local fighters amateur and professional He learned the Sweet science of bruising participating in all phases of the pugilist's strenuous preparation from shadow boxing drills to sparring to fighting in the Golden Gloves tournament In this experimental ethnography of incandescent intensity the scholar turned boxer supplies a model for a carnal sociology capable of capturing the taste and ache of action Body and Soul marries the analytic rigor of the sociologist with the stylistic grace of the novelist to offer a compelling portrait of a bodily craft and of life and labor in the black American ghetto but also a fascinating tale of personal transformation and social transcendence

Body & Soul Loïc Wacquant, 2003-12-11 When French sociologist Loïc Wacquant signed up at a boxing gym in a black neighborhood of Chicago's South Side he had never contemplated getting close to a ring let alone climbing into it Yet for three years he immersed himself among local fighters amateur and professional He learned the Sweet science of bruising participating in all phases of the pugilist's strenuous preparation from shadow boxing drills to sparring to fighting in the Golden Gloves tournament In this experimental ethnography of incandescent intensity the scholar turned boxer fleshes out Pierre Bourdieu's signal concept of habitus deepening our theoretical grasp of human practice And he supplies a model for a carnal sociology capable of capturing the taste and ache of action Body Soul marries the analytic rigor of the sociologist with the stylistic grace of the novelist to offer a compelling portrait of a bodily craft and of life and labor in the black American ghetto at century's end

Body and Soul Loïc Wacquant, 2021-08-12 Loïc Wacquant's Body and Soul melds Pierre Bourdieu's signal concept of habitus with Wacquant's ethnographic observations as an amateur boxer at a gym in Chicago's South Side This updated edition features a new preface and postface that elaborate upon Bourdieu's theory of habitus demonstrating the ways in which habitus anchors both the method and theory in the book and to provide a genealogy of the concept

Body & Soul Loïc J. D. Wacquant, 2022 In this postface I explicate the analytic agenda woven into the narrative fabric of Body and Soul to unpack its theoretical import and leverage its research implications I recount how I took up the ethnographic craft stumbled upon the Chicago boxing gym that is the main scene and character of my conversive ethnography of prizefighting in the black American ghetto and designed the book so as to both deploy methodologically and elaborate empirically Pierre Bourdieu's signal concept of habitus I draw out some of the biographical and intellectual connections between this research project on a plebeian bodily craft the theoretical framework that informs it and the macro comparative inquiry into urban marginality of which it is an unplanned offshoot I sketch how the practicalities of first hand observation led me from the ghetto as implement of ethnoracial domination to embodiment as puzzle and springboard for social inquiry Through this reflection on becoming a prizefighter as social phenomenon turned sociological experiment I advocate for the use of fieldwork as an

instrument of theoretical construction the potency of carnal knowledge and the imperative of epistemic reflexivity I also stress the need to expand the textual genres and styles of ethnography so as to better capture the Sturm und Drang of social action as it is manufactured and lived

Symposium on Loïc Wacquant's Body and Soul Javier Auyero, 2005

Body & Soul Loïc J. D. Wacquant, 2006 In the late 1980s Wacquant a white French born French and American sociology graduate student entered the Woodlawn gym on 63rd Street in Chicago and began training as a boxer This text invites us to follow Wacquant's immersion into the everyday world of Chicago's boxers

Encounters of Body and Soul in Contemporary Religious Practices Anna Fedele, Ruy Llera Blanes, 2011-09-01 Social scientists and philosophers confronted with religious phenomena have always been challenged to find a proper way to describe the spiritual experiences of the social group they were studying The influence of the Cartesian dualism of body and mind or soul led to a distinction between non material spiritual experiences i.e. related to the soul and physical mechanical experiences i.e. related to the body However recent developments in medical science on the one hand and challenges to universalist conceptions of belief and spirituality on the other have resulted in body and soul losing the reassuring solid contours they had in the past Yet in Western culture the body/soul duality is alive not least in academic and media discourses This volume pursues the ongoing debates and discusses the importance of the body and how it is perceived in contemporary religious faith what happens when body and soul are unseparated entities Is it possible even for anthropologists and ethnographers to escape from natural dualism The contributors here present research in novel empirical contexts the benefits and limits of the old dichotomy are discussed and new theoretical strategies proposed

Imitating Christ in Magwi Todd D. Whitmore, 2019-01-24 Imitating Christ in Magwi An Anthropological Theology achieves two things First focusing on indigenous Roman Catholics in northern Uganda and South Sudan it is a detailed ethnography of how a community sustains hope in the midst of one of the most brutal wars in recent memory that between the Ugandan government and the rebel Lord's Resistance Army Whitmore finds that the belief that the spirit of Jesus Christ can enter into a person through such devotions as the Adoration of the Eucharist gave people the wherewithal to carry out striking works of mercy during the conflict and like Jesus of Nazareth to risk their lives in the process Traditional devotion leveraged radical witness Second Gospel Mimesis is a call for theology itself to be a practice of imitating Christ Such practice requires both living among people on the far margins of society Whitmore carried out his fieldwork in Internally Displaced Persons camps and articulating a theology that foregrounds the daily if extraordinary lives of people Here ethnography is not an add on to theological concepts rather ethnography is a way of doing theology and includes what anthropologists call thick description of lives of faith Unlike theology that draws only upon abstract concepts what Whitmore calls anthropological theology is consonant with the fact that God did indeed become human It may well involve risk to one's own life Whitmore had to leave Uganda for three years after writing an article critical of the President but that is what imitatio Christi sometimes requires

Ethnographic Research and Analysis Tom Vine, Jessica Clark, Sarah Richards, David Weir, 2017-10-19 This book reflects on the contemporary use of ethnography across both social and natural sciences focusing in particular on organizational ethnography autoethnography and the role of storytelling The chapters interrogate and reframe longstanding ethnographic discussions including those concerning

reflexivity and positionality while exploring evolving themes such as the experiential use of technologies The open and honest accounts presented in the volume explore the perennial anxieties doubts and uncertainties of ethnography Rather than seek ways to mitigate these inconvenient but inevitable aspects of academic research the book instead finds significant value to these experiences Taking the position that collections of ethnographic work are better presented as transdisciplinary bricolage rather than as discipline specific series each chapter in the collection begins with a reflection on the existing impact and character of ethnographic research within the author s native discipline The book will appeal to all academic researchers with an interest in qualitative methods as well as to advanced undergraduate and postgraduate students
