## **Body Soviet Propaganda Hygiene And The Revolutionary State:**

**The Body Soviet** Tricia Starks, 2008-11-04 In 1918 the People's Commissariat of Public Health began a quest to protect the health of all Soviet citizens but health became more than a political platform or a tactical decision. The Soviets defined and categorized the world by interpreting political orthodoxy and citizenship in terms of hygiene. The assumed political, social and cultural benefits of a regulated healthy lifestyle informed the construction of Soviet institutions and identity. Cleanliness developed into a political statement that extended from domestic maintenance to leisure choices and revealed gender, ethnic and class prejudices. Dirt denoted the past and poor politics, health and cleanliness signified mental acuity, political orthodoxy and modernity. Health though essential to the revolutionary vision and crucial to Soviet plans for utopia has been neglected by traditional histories caught up in Cold War debates. *The Body Soviet* recovers this significant aspect of Soviet thought by providing a cross disciplinary comparative history of Soviet health programs that draws upon rich sources of health care propaganda including posters, plays, museum displays, films and mock trials. The analysis of propaganda makes *The Body Soviet* more than an institutional history; it is also an insightful critique of the ideologies of the body fabricated by health organizations. A masterpiece that will thoroughly fascinate and delight readers, Starks's understanding of propaganda and hygiene in the early Soviet state is second to none. She tells the stories of Soviet efforts in this field with tremendous insight and ingenuity, providing a rich picture of Soviet life as it was actually lived. Elizabeth Wood, author of *From Baba to Comrade: Gender and Politics in Revolutionary Russia*

*Soviet Medicine* Frances Lee Bernstein, Christopher Burton, Dan Healey, 2010-11-01 Thanks to the opening of archives and the forging of exchanges between Russian and Western scholars interested in the history of medicine it is now possible to write new forms of social and political history in the Soviet medical field Using the lenses of critical social histories of healthcare and medical science and looking at both new material from Russian archives and interviews with those who experienced the Soviet health system the contributors to this volume explore the ways experts and the Soviet state radically reshaped medical provision after the Revolution of 1917 Soviet Medicine presents the work of an international group of leading scholars Twelve essays treating subjects that span the 74 year history of the Soviet Union cover such diverse topics as how epidemiologists handled plague on the Soviet borderlands in the revolutionary era how venereologists fighting sexually transmitted disease struggled to preserve the patient's right to secrecy and how Soviet forensic experts falsified the evidence of the Katyn Forest massacre of 1940 This important volume demonstrates the crucial role played by medical science practice and culture in the shaping of a modern Soviet Union and illustrates how the study of Soviet medical history can benefit historians of medicine science the Soviet Union and social and gender historians     **Gender in Twentieth-Century Eastern Europe and the USSR** Catherine Baker, 2016-09-29 A concise and accessible introduction to

the gender histories of eastern Europe and the Soviet Union in the 20th century. These essays juxtapose established topics in gender history such as motherhood, masculinities, work and activism with newer areas such as the history of imprisonment and the transnational history of sexuality. By collecting these essays in a single volume, Catherine Baker encourages historians to look at gender history across borders and time periods, emphasising that evidence and debates from Eastern Europe can inform broader approaches to contemporary gender history.

**Multiehnic Societies of Central Asia and Siberia Represented in Indigenous Oral and Written Literature** Merle Schatz, 2022. Central Asia and Siberia are characterized by multiehnic societies formed by a patchwork of often small ethnic groups. At the same time, large parts of them have been dominated by state languages, especially Russian and Chinese. On a local level, the languages of the autochthonous people often play a role parallel to the central national language. The contributions of this conference proceeding follow up on topics such as: What was or is collected and how can it be used under changed conditions in the research landscape; how does it help local ethnic communities to understand and preserve their own culture and language? Do the spatially dispersed but often networked collections support research on the ground? What contribution do these collections make to the local languages and cultures against the backdrop of dwindling attention to endangered groups? These and other questions are discussed against the background of the important role libraries and private collections play for multiehnic societies in often remote regions that are difficult to reach.

**Disability and Mobile Citizenship in Postsocialist Ukraine** Sarah D. Phillips, 2011. Sarah Phillips examines how disabled persons in the Ukraine struggled to secure their rights during the tumult of the past two decades. She documents their creative strategies, argues that public storytelling is a powerful means to expand notions of relatedness, kinship, social responsibility.

**Deviant Women** Sharon A. Kowalsky, 2009. After seizing power in 1917, the Bolsheviks initiated reforms aimed at abolishing the old way of life in Russia. A new Family Code liberalized marriage procedures, promoted communal living arrangements, and abolished the concept of illegitimacy. Other decrees legalized abortion, deregulated prostitution, and emancipated women. The Bolsheviks' Marxist ideology, which guided these reforms, was also behind the assertion that crime, an artifact of bourgeois capitalist exploitation, would disappear under socialism. As crime persisted, Soviet criminologists, a cohort of jurists, doctors, sociologists, anthropologists, psychiatrists, statisticians, and forensic experts, were charged with examining its causes and motives to determine the most effective methods to eliminate it. The problem of female crime occupied a prominent position in criminologists' studies. In explaining traditional female crimes of the domestic sphere—infanticide, spouse murder, and petty theft, among others—criminologists pointed to the offenders' backwardness and ignorance, material circumstances, and even biology. Kowalsky examines the position of women in early Soviet society through the lens of deviance, exploring how Soviet criminologists understood female crime and how their attitudes helped shape the development of Soviet social and behavioral norms. *Deviant Women* looks at the emergence of criminology in early Soviet Russia, tracing

the development of principles and theories particularly that of female deviance and highlighting the ways in which criminologists were able to conduct innovative social science research under the constraints of Bolshevik ideology Kowalsky then focuses on the analyses of female crime and criminologists attitudes concerning sexuality geography and class Concluding with a close study of infanticide the most typical crime committed by women Kowalsky discusses the social attitudes that were revealed in the professional discussion of this crime Historians of modern Russia and the USSR scholars of gender studies and those studying criminology will be fascinated by this original study

**Constructing Russian Culture in the Age of Revolution,**

**1881-1940** Catriona Kelly,David G. Shepherd,1998 IConstructing Russian Culture offers a pioneering new account of the relationship between literature and other cultural forms in Late Imperial Russia and Revolutionary Russia The general consensus in Western study of Russia and the Soviet Union has been that understanding of historical background is essential to the study of literature But this consensus has so far failed to produce sophisticated overviews of the culture as a whole literary histories seldom venture outside a rigid canon of authors and literary groupings and the account of historical

background sometimes amount to little more than a listing of certain predictable political and social factors that can be perceived to have influenced or impeded literary developments This book is an ambitious attempt to recontextualize Russian literature and rethink the relations between literature and other cultural forms The book examines a number of in Bourdieu's term cultural fields in late Imperial Russia science and objectivity national and personal identity consumerism and commercial culture There is also a keywords introduction explaining the evolution of concepts of the self the nation and literariness in Russian culture and an Epilogue outlining the further history of the central themes after 1917 Contributors include leading specialists in Russian literature cultural history and cultural theory from Britain the USA and Russia Intended as a companion to Russian Cultural Studies An Introduction also OUP this stimulating original and controversial book will be a vital resource for all those interested in Russian culture during the age of Revolution **Journal of Social Hygiene** ,1928

**Current Thought** ,1925 Healthy Spirit in a Healthy Body Nina Sobol Levent,2004 Healthy spirit in a healthy body was the foundational slogan of the physical culture campaign By the beginning of the 1930s sports had become one of the most frequently pictured subjects of art Images of beautiful sportswomen and muscular athletes were widely used by the Soviet mass media Sportsmen were found on every collective portrait of Soviet people they appeared on almost every significant officially commissioned work be it a large scale oil painting for the Soviet exhibition pavilion or decoration in a theater club palace of culture or metro station They were featured on posters covers of Soviet magazines on television news and even in movies Soviet textile and porcelain designers widely used sport motifs In fact the amount of the sport related visual material suggests that the images of sports constituted a genre on its own in official Stalinist art The primary focus of this research is the representation of the sporting body and the social and ideological forces to which the athlete's body was exposed This is also an attempt to position the body of the Soviet athlete in the context of Soviet mythology and reconnect it with the greater context of body representation in pre Bolshevik and late Stalinist traditions *Everyday Life in Early Soviet Russia* Christina Kiaer,Eric Naiman,2006 What did it mean to live as a subject of early Soviet modernity In the 1920s and 1930s in an environment where every element of daily life was supposed to be transformed by Soviet ideology routine activities became ideologically significant subject to debate and change Drawing on original archival materials and theoretically informed the essays in this volume examine ways in which Soviet citizens sought to align their private lives with the public nature of Soviet experience by taking the Revolution inside Topics discussed include the new sexuality family loyalty during the Terror the advertisement of Soviet commodities the employment of domestic servants children's toys and Pioneer camps and narratives of self ranging from diaries to secret police statements to monologues on the Soviet screen and stage Bringing into dialogue essays by scholars in history literature sociology art history and film studies this interdisciplinary volume contributes to the growing understanding of the Soviet Union as part of the history of modernity rather than its totalitarian other Archiv für Sozialgeschichte ,2012
