## 2014 Regional Convention Notebook For Kids:

**Good Kids** Isabel Jijon, 2025-07-29 One in ten children worldwide is involved in some form of child labor While almost half are in occupations that put their safety at risk the other half have gray jobs like industrial farming or selling candy on the street Children in these positions often defend the value of their work and some even join social movements to demand the right to work with dignity In Good Kids Isabel Jijon reveals how global campaigns against child labor are often met with resistance from the very children they are meant to protect Conducting interviews in Bolivia and Ecuador with children who defend their labor Jijon explores what they mean by value rights and dignity in this context She finds that working children seek a sense of self worth as well as worthiness in their closest relationships they use work to prove that they are good sons daughters good friends or simply good kids Drawing also on interviews with reformers invested in ending child labor Jijon produces a nuanced picture of the ways that global campaigns can unintentionally undermine these relationships and make working children feel stigmatized rather than protected This fascinating and challenging study of moral meaning making upends simple understandings of harm and worthiness in a vast but poorly understood labor market Children's Rights

Ursula Kilkelly, 2017-07-05 The articles in this volume shed light on some of the major tensions in the field of children's rights such as the ways in which children's best interests and respect for their autonomy can be reconciled challenges such as how the CRC can be made a reality in the lives of children in the face of ignorance apathy or outright opposition and critiques whether children's rights are a Western imposition or a successful global consensus Along the way the writing covers a myriad of issues encompassing the opposition to the CRC in the US gay parenting Dr Seuss's take on children's autonomy the voice of neonates on their health care the role of NGO in supporting child labourers in India and young people in detention and more Reconceptualising Unaccompanied Child Asylum Seekers and the Law Jennifer L. Whelan, 2022-09-30

Unaccompanied child asylum seekers are amongst the world's most vulnerable populations and their numbers are increasing The intersection of their age their seeking asylum and separation from their parents creates a specific and acute triple burden of vulnerability Their precariousness has long been recognised in international human rights law Yet human rights based responses have been subordinated to progressive global securitisation of irregular migration through interception interdiction extraterritorial processing and immigration detention Such an approach necessitates an urgent paradigm shift in how we comprehend their needs as children the impact of punitive border control laws on them and the responsibility of States to these children when they arrive at their borders seeking asylum This book reconceptualises the relationship between unaccompanied child asylum seekers and States It proposes a new conceptual framework by applying international human rights law childhood studies and vulnerability theory scholarship in analysing State obligations to respond to these children This framework incorporates a robust analysis of the operation and impact of laws on vulnerable populations a taxonomy for articulating the gravity of any consequent harms and a method to prioritise recommendations for reform The

book then illustrates the framework's utility using Australia's treatment of unaccompanied children as a case study. This book illuminates key learnings from human rights law, childhood studies and vulnerability theory and transforms them into a new roadmap for law reform. As such, it will be a valuable practice-based resource for practitioners, non-government organisations, advocates, policymakers and the general public interested in advocating for the rights of vulnerable populations as well as for academics, researchers and students of human rights law, refugee law, childhood studies and vulnerability studies.

Handbook of Children's Rights Martin D. Ruck, Michele Peterson-Badali, Michael Freeman, 2016-12-08. While the notion of young people as individuals worthy or capable of having rights is of relatively recent origin, over the past several decades there has been a substantial increase in both social and political commitment to children's rights as well as a tendency to grant young people some of the rights that were typically accorded only to adults. In addition, there has been a noticeable shift in orientation from a focus on children's protection and provision to an emphasis on children's participation and self-determination. With contributions from a wide range of international scholars, the *Handbook of Children's Rights* brings together research, theory and practice from diverse perspectives on children's rights. This volume constitutes a comprehensive treatment of critical perspectives concerning children's rights in their various forms. Its contributions address some of the major scholarly tensions and policy debates comprising the current discourse on children's rights, including the best interests of the child, evolving capacities of the child, states' rights versus children's rights, rights of children versus parental or family rights, children as citizens, children's rights versus children's responsibilities and balancing protection and participation. In addition to its multidisciplinary focus, the handbook includes perspectives from social science domains in which children's rights scholarship has evolved largely independently due to distinct and seemingly competing assumptions and disciplinary approaches, e.g. childhood studies, developmental psychology, sociology of childhood, anthropology and political science. The handbook also brings together diverse methodological approaches to the study of children's rights, including both quantitative and qualitative perspectives and policy analysis. This comprehensive, cosmopolitan and timely volume serves as an important reference for both scholarly and policy-driven interest in the voices and perspectives of children and youth.

*The UN Convention on the Rights of the Child* John Tobin, 2019-03-28. In doing so, it draws on the work of the Committee on the Rights of the Child, international, regional and domestic courts, academic and interdisciplinary scholarly analyses. It is of relevance to anyone working on matters affecting children, including government officials, policy makers, judicial officers, lawyers, educators, social

workers health professionals academics aid and humanitarian workers and members of civil society     The EU as a Children's Rights Actor Ingi Iusmen, Helen Stalford, 2015-11-16 This edited collection critiques from an interdisciplinary perspective the growing body of EU children's rights activities in the light of broader political economic and legal processes Specifically it interrogates whether EU intervention effectively responds to what are perceived as violations of children's rights and the extent to which EU efforts to uphold children's rights complement and reinforce parallel national and international pursuits Moreover it scrutinises the compatibility of EU children's rights measures with the principles and provisions enshrined in the UN Convention on the Rights of the Child CRC     **Encyclopedia of Endocrine Diseases**

explanations Exploring the subjective reasons by listening to children s perspectives their stories show that many of them decide to marry for love desire to belong to the community and for new opportunities and hopes The book then demonstrates how the child marriage framework and indeed the human rights framework in general is constructed on too narrow a vision of human agency One that cannot but fail to respect and promote the agency of all regardless of gender race religion and age This book will be of interest to scholars students and practitioners in the areas of children s rights legal anthropology and socio legal studies *Journal of the Senate, State of Florida* Florida.
