Meth=Sorcery Steve Box,2000-06-01 Steve box speaks with an authority that only comes from a Holy Spirit experience Steve s burning desire to educate the users of methamphetamines to its dangers both physical and spiritual comes from the nightmare experiences of many years of sustained drug use Cover by Phillip McClendon The Alchemy of Meth Jason Pine,2019-11-05 Meth cooks practice late industrial alchemy transforming base materials like lithium batteries and camping fuel into gold Meth alchemists all over the United States tap the occulted potencies of industrial chemical and big pharma products to try to cure the ills of precarious living underemployment insecurity and the feeling of idleness Meth fires up your attention and makes repetitive tasks pleasurable whether it s factory work or tinkering at home Users are awake for days and feel exuberant and invincible In one person s words they get more life The Alchemy of Meth is a nonfiction storybook about St Jude County Missouri a place in decomposition where the toxic inheritance of deindustrialization meets the violent hope of this drug making cottage industry Jason Pine bases the book on fieldwork among meth cooks recovery professionals pastors public defenders narcotics agents and pharmaceutical executives Here St Jude is not reduced to its meth problem but Pine looks at meth through materials landscapes and institutions the sprawling context that makes methlabs possible The Alchemy of Meth connects DIY methlabs to big pharma s superlabs illicit speed to the legalized speed sold as ADHD medication uniquely implicating the author s own story in the narrative By the end of the book the backdrop of St Jude becomes the foreground It could be a story about life and work anywhere in the United States where it seems no one is truly clean and all are complicit in the exploitation of their precious resources in exchange for a livable present or even the hope of a future

Anthropologies of Entanglements Christiane Voss,Lorenz Engell,Tim Othold,2023-08-24 Media and human modes of existence are always already intertwined and interdependent The notion of the anthropocene has further stimulated a new examination of ideas about human agency and responsibility Various approaches all emphasize relational concepts and the situatedness and embodiment of human and also non human existences and experiences Their common interest has shifted from any so called human nature to the multitude of cultural topographical technical historical social discursive and media formats with which human existences are entangled This volume brings together a range of thinkers from international backgrounds and puts these important reflections and ideas in the spotlight More specifically the volume explores the concept of anthropomedial entanglements It fosters an understanding of human bodies experiences and media as being immanently entangled and mutually constituting prior to any possible distinction between them The different contributions thus open up a dialogue between empirical case studies and media historical research on the one hand and the conceptual work of media and cultural philosophies and aesthetics on the other hand *Truth Seeker* ,1893 The Truth Seeker ,1893
