

## Popup Calendar for AcroForm

By Thom Parker, WindJack Solutions, Inc.

Currently, there is no really good way to create a general purpose popup calendar for use with Acrobat Forms, but there are still a couple of ways that it can be done. The calendar presented here is composed entirely of Acrobat Form Fields and controlled through JavaScript. It was first developed a very long time ago by Jens Thomsen at Trivect Development in Denmark ([www.trivect.dk](http://www.trivect.dk)), who provides it for free. It has been touched by several developers since then, and a few have even tried to productive it. The version presented here was modified by David Conorezzo at FormSmarter ([www.formsmarter.com](http://www.formsmarter.com)), and I consider it the very best <http://www.formsmarter.com>. It is much faster, and easier to use than the original. I further modified the code to handle jpeg images, and to use the [www.muhimbi.com](http://www.muhimbi.com) file upload component, which the original developer did.
