**Action Research in Special Education** Susan Bruce, Gerald J. Pine, 2010-06-27 This is the first book about action research devoted to the complex issues faced by children with special needs and their teachers. The authors begin by providing the historical and philosophical underpinnings of action research and then present a framework for conducting action research in special education. In addition, they feature four examples of actual teacher-researcher studies as well as a how-to chapter that outlines the basic principles needed for conducting action research. This book is essential reading for anyone interested in using action research to enhance student achievement and to address issues of social justice faced by children with special needs.

**Book Features:** Details of the origins and practice of action research in special education; Demonstration of how action research is a dedicated component of preservice teacher preparation; Examples of action research performed by students in the field.

**Action Research in Teaching and Learning** Lin Norton, 2018-11-02 Practical and down-to-earth, the second edition of *Action Research in Teaching and Learning* is an ideal introduction to the subject, offering a distinctive blend of the theoretical and the practical, grounded firmly in the global higher education landscape. Written in an accessible style to build confidence, it provides easily adaptable practical frameworks, guidelines, and advice on research practice within a higher education context. The reader is guided through each stage of the action research process, from engaging with the critical theory to the practical applications, with the ultimate goal of providing a research study which is publishable. Supplemented by useful pedagogical research tools and exemplars of both qualitative and quantitative action research studies, this new edition features chapters engaging with teaching excellence and analysing qualitative and quantitative research. Additions to the resources section and a new preface focusing more explicitly on the ever-growing number of part-time academics. *Action Research in Teaching and Learning* combines a theoretical understanding of the scholarly literature with practical applications and is an essential critical read for any individual teaching or undertaking action research.
