Thomas,2019-10-22 Publisher's Note Products purchased from Third Party sellers are not guaranteed by the publisher for quality authenticity or access to any online entitlements included with the product The long awaited new edition of the world's most widely used and highly regarded textbook and reference of emergency medicine A Doody's Core Title for 2019

Tintinalli's Emergency Medicine is THE essential resource for everyone working in and teaching emergency medicine. The Ninth Edition provides the depth and breadth of coverage that reflects the complexity and expertise needed to practice emergency medicine in today's fast paced environments. This comprehensive text is an important clinical resource for physicians, residents and students, advance practice providers, emergency nurses, EMTs and paramedics. It is a necessary resource for in training and board examinations and recertification. Tintinalli's Emergency Medicine covers everything from prehospital care, disaster preparedness and basic and advanced resuscitative techniques to all the significant medical, traumatic and environmental conditions requiring emergency treatment in adults, children and neonates. Highlights of the Ninth Edition: Full color design with more tables than ever to succinctly present key information. Extensive updates to all sections incorporating the latest clinical and evidence based information. Online access to over 100 videos covering a wide range of diagnostic and therapeutic procedures and POCUS for obstetric, gynecologic, pediatric, musculoskeletal and vascular conditions. World class pediatric section on the care of neonates, infants and children. Expanded chapters on the management of gynecologic and obstetric conditions and emergencies. Updated information on toxicologic and environmental emergencies. Contemporary, concise discussion of ED identification and treatment of opioid use disorders. Updated information on procedural sedation. Expert advice on the management and care of transgender patients. Latest information available on neurologic and cardiac emergencies. From the reviews of the seventh edition: Collectively they have once again produced an excellent text that manages to cover the broad scope of emergency medicine while remaining an easily readable and practical resource. Last for the inevitable comparison of this current edition of Tintinalli's Emergency Medicine with other available emergency medicine textbooks, available in my opinion, Tintinalli's still comes out on top. It is more concise and easier to read than some yet it covers the breadth of emergency medicine practice more comprehensively than others. Just as previous editions did, the seventh presents all of the most pertinent and up to date information in a well organized format that is comprehensive yet easy to read. That and many of the attractive new features in this current edition will ensure its place on my bookshelf for years to come.

Fixing the

Broken Promise of Education for All Angela Hawke, 2015. *Fixing the Broken Promise of Education for All* published by the UNESCO Institute for Statistics and UNICEF presents the latest statistical evidence from administrative records and household surveys to better identify children who are out of school and the reasons for their exclusion from education. It aims to inform the policies needed to reach these children and finally deliver the promise of Education for All. Based on a series of national and regional studies and policy analysis by leading experts the report explains why better data and cross sector collaboration are fundamental to the design of effective interventions to overcome the barriers facing out of school children and adolescents. While highlighting the way forward for system wide policies to improve educational quality and affordability the report also presents the information needed for targeted approaches to address the compounding effects of disadvantage faced by children caught up in armed conflict, girls working, children with disabilities or members of ethnic or linguistic minorities. This report presents a roadmap to improve the data research and policies needed to catalyse action for out of school children as the world embarks on a new development agenda for education.
