Alignment Strategic Re:

Facilities Management and Corporate Real Estate Management as Value Drivers Per Anker Jensen, Theo van der Voordt, 2016-10-04 Facilities Management FM and Corporate Real Estate Management CREM are two closely related and relatively new management disciplines with developing international professions and increasing academic attention. Both disciplines have from the outset a strong focus on controlling and reducing cost for real estate facilities and related services. In recent years there has been a change towards putting more focus on how FM CREM can add value to the organisation. This book is driven by the need to develop a widely accepted and easily applicable conceptual framework of adding value by FM and CREM. It presents the state of the art of theoretical knowledge and empirical evidence about the impact of buildings and facilities on 12 value parameters and how to manage and measure these values. The findings are connected to a new Value Adding Management model. The book is research based with a focus on guidance to practice. It offers a transdisciplinary approach integrating academic knowledge from a variety of different fields with practical experience. It also includes 12 interviews with practitioners shedding light as to how they manage adding value in practice. This is a much needed resource for practitioners, researchers and teachers from the field of FM and CREM as well as students at both undergraduate and postgraduate level.

Green Technologies: Concepts, Methodologies, Tools and Applications

Management Association, Information Resources, 2011-03-31 Green Technologies Concepts Methodologies Tools and Applications assembles the most up to date collection of research results and recent discoveries in environmental and green technology. This comprehensive anthology covers a wide range of topics in Strategic Leadership: Realizing Student Aspiration Outcomes Inas Zulkipli Ph.D., Hairuddin Mohd Ali Ph.D., 2018-10-08 Strategic leadership is considered alienated to the education administrators fraternity. The scholars of education were unaware of this knowledge because education stood by itself. The dynamic globalization changed the world in almost everything including education. This dynamic and fast changing environment almost shocked the education fraternity. Instantaneously they felt left out and lacking of effective and dynamic strategies to cope up with the swift change. Therefore the new and contemporary educational strategic leadership knowledge content of this book is able to contribute to the endeavors of future educational leaders. Our precious book is definitely invaluable to educational leaders and educational managers all over the world. As for postgraduate students in educational leadership this book might be useful for you as well.

Handbook of Research on Library Response to the COVID-19 Pandemic

Holland, Barbara, 2021-03-19 Since the spread of COVID 19 conferences have been canceled schools have closed and libraries around the world are facing difficult decisions on which services to offer and how ranging from minimal restrictions to full closures. Depending on the country state or city a government may have a different approach sometimes ordering the closure of all institutions others indicating that it's business as usual and others simply leaving decisions up to library directors. All libraries worldwide have been affected from university libraries to public library systems.

and national libraries Throughout these closures libraries continue to provide services to their communities which has led to an emerging area of research on library services new emerging technologies and the advancements made to libraries during this global health crisis The Handbook of Research on Library Response to the COVID 19 Pandemic consists of chapters that contain essential library services and emerging research and technology that evolved and or has continued during the COVID 19 pandemic as well as the challenges and opportunities that have been undertaken as a result The chapters provide in depth research surveys and information on areas such as remote working machine learning data management and the role of information during COVID 19 This book is a valuable reference tool for practitioners stakeholders researchers academicians and students who are interested in the current state of libraries during a pandemic and the future outlook
