Apple Manual Design:

The iPhone App Design Manual Dave Brown, 2014-02-18 App creation is now a huge global business with hundreds of thousands of developers entrepreneurs and companies attracted by the potential rewards But games functional apps and promotional apps alike depend on attractive intuitive design for their appeal and most fail to find a significant audience With this book you ll be able to turn your great app idea into a functioning design ready for coding or apply graphic design skills to this exciting new field and create an app that will stand out in a market that is worth over a billion dollars every year

Understand the design process that underlies the best and most successful apps Learn how to create a friendly interface and smooth user experience and avoid the pitfalls that plague first time designers Master the tricks of the trade that make apps stand out effective visuals punchy copy and attractive colors

Apple Inc. Jason D. O'Grady, 2008-12-30 Two guys named Steve working in a garage created a prototype computer designed to be different in a way no one thought possible It would be easy to use Those two Steves one now a billionaire and still at the head of Apple not only succeeded with that product but they also broke ground in the business world in ways few thought possible They proved you could not only have fun at work but pursuing a capitalist dream could be hip How did Apple do it How did it go from making computers that made a difference but not much of a dent in the overall market to creating a device the iPod and a music service iTunes that has changed the way we buy and experience music And how did the Macintosh and its successors capture the hearts and minds of computer users so deeply that being a Mac person makes you a member of a special club That s what this book is all about As author Jason D O Grady shows Apple is a rare company one that is not afraid to think about a future that does not exist and turn it into reality Critics have written Apple off time and again yet it rises from the ashes to astound the critics and delight its customers That s not luck or happenstance it s vision dedication and persistence Besides delighting Apple aficionados this book will inspire students eager to launch a business career or work in the technology sector Apple has never been afraid to chart its own path and readers will learn what makes the company tick

Responsive Design Workflow Stephen Hay, 2013 In our industry everything changes quickly usually for the better We have more and better tools for creating websites and applications that work across multiple platforms Oddly enough design workflow hasn t changed much and what has changed is often for worse Old school workflow is simply not effective on our multiplatform web Fixed width Photoshop comps and overproduced wireframes are no longer the way to design for today s multi platform web This book provides a practical approach for designing in the browser It shows how to better manage client expectations and development requirements and offers a method of design documentation
