Apple Store Government:

Opening Government John Wanna, Sam Vincent, 2018-04-23 Transparency and citizen engagement remain essential to good government and sound public policy. Indeed, they may well be the key to restoring trust in government itself, currently at an all-time low in Australia. It is ironic then that this has occurred at a time when the technological potential for information dissemination and interaction has never been greater. **Opening Government: Transparency and Engagement in the Information Age** explores new horizons and scenarios for better governance in the context of the new information age, focusing on the potentials and pitfalls for governments and governance more broadly operating in the new information-rich environment. Its contributors, a range of international and Australian governance academics and practitioners, ask what are the challenges to our governing traditions and practices in the new information age and where can better outcomes be expected using future technologies. They explore the fundamental ambiguities extant in opening up government with governments intending to become far more transparent in providing information and in information sharing but also more motivated to engage with other data sources, data systems, and social technologies. **From Government to E-Governance: Public Administration in the Digital Age** Islam, Muhammad Muinul, Ehsan, Mohammad, 2012-07-31 **From Government to E-Governance: Public Administration in the Digital Age** will aim to provide relevant theoretical frameworks, past experiences, and the latest empirical research findings in the area of public administration systems that existed in earlier civilizations as well as e-governance introduced in modern times. The target audience of this book will be composed of academics, students, civil servants, researchers, and policy advisors teaching and studying public administration and public policy thinking to bring administrative reforms and working in government. **Investigation Into Commercial and Industrial-Type Activities in the Federal Government** United States. Congress. House. Committee on Government Operations. Intergovernmental Relations Subcommittee, 1953. Focuses on Federal agency competition with private industry. **Censorship** The New York Times Editorial Staff, 2019-07-15 In October 2018, Jamal Khashoggi, a prominent journalist who was critical of the Saudi Arabian government, was assassinated at the Saudi consulate in Istanbul. His was an extreme case of censorship, the act of suppressing people, platforms, and ideas that are contrary to the status quo. Why do governments, publications, and other entities censor information? Is motivation driven only by authoritarian power, or are there sometimes benefits to censorship as in that of the U.S. press during times of war? In this collection, readers encounter cases of suppression in the arts, scientific studies, and the evolution of censorship in the internet age, particularly in nations such as China, Russia, and Saudi Arabia. Media literacy questions and terms aid readers in analyzing how this complex topic is reported. **Investigation Into Commercial and Industrial-type Activities in the Federal Government** United States.
