Life Goes Both Ways Willy Vil, 2024-08-05 The story Life Goes Both Ways is a true story that is about a twenty year old who just finished high school from abroad and moved to the USA without his mom dad and friends Due to the speech impediment life was too difficult for him When he left he made lots of commitments to his family In the start he felt that everything was going to be easy to the point where he was going to maintain a reasonable life right away Shortly he discovered that things didn't work like that in the United States of America Some types of items ought to be done sooner before you could get yourself situated At foremost he was living with his brother J but things didn't work out nicely between the two of them In a brief time in the country he was out of his brother's home with no place to stay Luckily an elder companion of his promised him to stay in his place until he gets his life in order Therefore he jumped back and forth from position to position until he chose to go to school to

construct some modifications in his life He attempted to go to school but it didn't work out for him It wasn't until he met a professor who used to teach French at a university in Paris who showed him some methods about how to write essays in the English language Ever since he observed he was doing very well in school He managed to get his associates in business entrepreneurship but then quit going to college After a few years he met his wife and they had three boys together and bought a house Due to union obligations and taking care of the children he couldn't afford to go back to school His life was focused on the children's education and work After the children graduated from college and had successful careers he decided to go back to school to finish what he started After fifty plus years during COVID time he went back to school and managed to graduate with honors He went to Purdue University Global where he got himself a degree in business administration He was an exceptional student too Information in the book showcased that life went both ways At certain times in life there would be no way out other times things would be floating smoothly At first the future didn't appear very good for the young man in this country With hard work commitment and the support of a few good people he managed to adjust certain things and at last create an exorbitant life for himself Things were challenging at the beginning but he turned a bunch of negative stuff into positive ones Nevertheless I think that we need good tutors to teach us about the facts of life In that case our parents are the ideal ones After all I believe very strongly that we should listen to our mom and dad more often because their words contain valuable lessons to teach us

Essays in Economics: Macroeconomic analyzes and

perspectives of economic thought Muhammad Mustafa Rashid, 2022-06-28 Chapter 1 The purpose of this chapter is to provide insights into how the proliferation of globalization has impacted labor markets both in advanced industrialized nations and well as developing nations Insightful analysis will be drawn from Oatley 2011 on division of labor Jaumotte Tytell 2007 on labor compensation Hahn Narjoko 2013 on the impact on South Asian Countries Basu 2016 on wage as a share of GDP and Wallace Gauchat Fullerton 2011 on the impact of globalization and labor markets on inequality Chapter 2 Building on the system of reason provided for by the Greek philosopher and specifically Aristotle St Thomas Aquinas built a comprehensive system and theory of natural law which has lasted through the ages The theory was further developed in the Middle Ages and in the Enlightenment Ages by many a prominent philosopher and economist and has been recognized in the Modern Age The natural law theory and system has been repeatedly applied to the spheres of economic thought and has produced many lasting contributions such as private property rights and individual rights In recent times with the collapses of the financial system and rapid globalization there has been a renewed interest in the application of natural law theory to economics to counter a certain anthropology and distortion of values created by a modern economic system of self preservation deriving its insights from the philosophies of Thomas Hobbes and Niccolo Machiavelli Chapter 3 The credit crises experienced in the US in year 2008 is labeled as perhaps the most significant crises since the great depression The roots of the crises were found in the default of the sub prime mortgages and the failure occurred in both the US and the UK

What You Do Is

Who You Are Ben Horowitz,2019-10-29 Ben Horowitz a leading venture capitalist modern management expert and New York Times bestselling author combines lessons both from history and from modern organizational practice with practical and often surprising advice to help executives build cultures that can weather both good and bad times Ben Horowitz has long been fascinated by history and particularly by how people behave differently than you d expect The time and circumstances in which they were raised often shapes them yet a few leaders have managed to shape their times In *What You Do Is Who You Are* he turns his attention to a question crucial to every organization how do you create and sustain the culture you want To Horowitz culture is how a company makes decisions It is the set of assumptions employees use to resolve everyday problems should I stay at the Red Roof Inn or the Four Seasons Should we discuss the color of this product for five minutes or thirty hours If culture is not purposeful it will be an accident or a mistake *What You Do Is Who You Are* explains how to make your culture purposeful by spotlighting four models of leadership and culture building the leader of the only successful slave revolt Haiti s Toussaint Louverture the Samurai who ruled Japan for seven hundred years and shaped modern Japanese culture Genghis Khan who built the world s largest empire and Shaka Senghor a man convicted of murder who ran the most formidable prison gang in the yard and ultimately transformed prison culture Horowitz connects these leadership examples

to modern case studies including how Louverture's cultural techniques were applied or should have been by Reed Hastings at Netflix Travis Kalanick at Uber and Hillary Clinton and how Genghis Khan's vision of cultural inclusiveness has parallels in the work of Don Thompson the first African American CEO of McDonalds and of Maggie Wilderotter the CEO who led Frontier Communications Horowitz then offers guidance to help any company understand its own strategy and build a successful culture. What You Do Is Who You Are is a journey through culture from ancient to modern. Along the way it answers a question fundamental to any organization: who are we? How do people talk about us when we're not around? How do we treat our customers? Are we there for people in a pinch? Can we be trusted? Who you are is not the values you list on the wall. It's not what you say in company wide meeting. It's not your marketing campaign. It's not even what you believe. Who you are is what you do. This book aims to help you do the things you need to become the kind of leader you want to be and others want to follow.
