Physio-logging in Humans: Recent Advances and Limitations in Wearable Devices for Biomedical Applications
Mohammad Yavarimanesh, Colin K. Drummond, Cederick Landry, 2025-08-29

The recent advancements in wearables, nearables, and machine learning have paved the way for unparalleled approaches to monitoring physiological parameters. These approaches show great potential in studying human physiology during daily life as well as in extreme conditions such as astronaut monitoring and human performance. In addition, wearables and recent advances in physio logging can alleviate the impact of numerous diseases and medical conditions globally and therefore have the potential to reduce the cost of healthcare and increase patients' quality of life. Noteworthy strides have already been accomplished, evoking enthusiasm among patients and researchers alike, but very few wearable solutions have reached their anticipated potential due to many limitations such as sensor interoperability, fit, comfort, adverse reaction to wearables, lack of design standards, and validation guidelines. By curating an article collection that brings together explored avenues to monitor physiological parameters that did or did not work, it is anticipated that further progress in the field can be accelerated.

Cost Accounting Margaret H. Christ, D. Kip Holderness (Jr.), Vernon J. Richardson, 2024

The role of management accountants is to analyze data to help organizations make effective business decisions. Thanks to an ever increasing amount of data generated by companies, the opportunities for management accountants to provide data driven insights have never been greater. We believe that students can prepare for an accounting career not only by understanding the methods and procedures of cost accounting but also by learning how to examine and analyze data, interpret the results and share insight with others in their organizations.
