*Reenvisioning Christian Ethics* Darryl W. Stephens,2020-12-29 Christian ethics is a wide and varied field so diverse are the methods and approaches theological perspectives and starting points and scopes of inquiry and purposes dare we even call it a discipline that the field is rarely considered as a whole Christian ethics includes historical descriptive critical constructive and applied projects on countless topics Lending creative energy to this field of study are a range of partner disciplines including most prominently theology philosophy and sociology each containing multiple schools themselves To envision the entire field of Christian ethics is a difficult task to reenvision the entire field may perhaps be impossible for one person Thus this publication includes original research by multiple scholars each offering a distinct perspective from their primary partner discipline Chapters include Roman Catholic and Protestant voices from Europe Asia and North America In aggregate these writings contribute to a composite reenvisioning of Christian ethics refracting our collective vision through the prisms of diverse academic and methodological perspectives in this vast field of inquiry study and practice

*Connecting Jesus to Social Justice* Thomas Hughson,2013-10-10 Many Christians see the societal dimension of their faith as a matter of biblical and social ethics Returning to classical Christology Connecting Jesus to Social Justice explores messianic potential in the Council of Chalcedon on the divine identity of Christ Who Jesus is makes all the

difference to Christian entrance into the public sphere on behalf of a just society The Messiah's divinity bears on social mission directed toward a just social order Theological appropriation of Chalcedon overcomes a gap between the professing the Creed and interpreting social existence in light of a just social order Connecting Jesus to Social Justice argues a doctrinally traditional orthodox basis for Christian participation in the public sphere on behalf of social justice The book addresses a situation internal to churches in the U.S. from a Catholic perspective yet not without analogies in other churches and Christian movements Applying traditional Christology to contemporary social mission solidifies an answer to adversarial queries on the appropriateness of a social agenda Implications in the classical Christology also confirm churches and discipleship in commitment to social justice promoted through a subaltern counter public and then by word and deed in the public sphere
