Space Physics and Aeronomy, Ionosphere Dynamics and Applications Chao Huang,Gang Lu,2021-05-11 A comprehensive review of global ionospheric research from the polar caps to equatorial regions It s more than a century since scientists first identified the ionosphere the layer of the Earth s upper atmosphere that is ionized by solar and cosmic radiation Our understanding of this dynamic part of the near Earth space environment has greatly advanced in recent years thanks to new observational technologies improved numerical models and powerful computing capabilities Ionosphere Dynamics and Applications provides a comprehensive overview of historic developments recent advances and future directions in ionospheric research Volume highlights include Behavior of the ionosphere in different regions from the poles to the equator Distinct characteristics of the high mid and low latitude ionosphere Observational results from ground and space based instruments Ionospheric impacts on radio signals and satellite operations How earthquakes and tsunamis on Earth cause disturbances in the ionosphere The American Geophysical Union promotes discovery in Earth and space science for the benefit of humanity Its publications disseminate scientific knowledge and provide resources for researchers students and professionals Find out more about the Space Physics and Aeronomy collection in this Q A with the Editors in Chief

Production, Properties, and Applications of High Temperature Coatings Pakseresht, Amir Hossein,2018-01-12 Heat resistant layers are meant to withstand high temperatures while also protecting against all types of corrosion and oxidation Therefore the micro structure and behavior of such layers is essential in understanding the functionality of these materials in order to make improvements Production Properties and Applications of High Temperature Coatings is a critical academic publication which examines the methods of creation characteristics and behavior of materials used in heat resistant layers Featuring coverage on a wide range of topics such as thermal spray methods sol gel coatings and surface nanoengineering this book is geared toward students academicians engineers and researchers seeking relevant research on the methodology and materials for producing effective heat resistant layers Policing and Boundaries in a Violent Society Guy

Lamb,2022-01-31 This book explores how social and territorial boundaries have influenced the approaches and practices of the South Africa Police Service SAPS By means of a historical analysis of South Africa this book introduces a new concept police frontierism which illuminates the nature of the relationships between the police policing and boundaries and can potentially be used for future case study research Drawing on a wealth of research this book examines how social and territorial boundaries strongly influenced police practices and behaviour in South Africa and how social delineations amplify and distort existing police prejudices against those communities on the other side of the boundary Focusing on cases of high density police operations public order policing and the recent policing of the COVID 19 lockdown this book argues that poor economic conditions combined with an increased militarisation of the SAPS and a decline in public trust in the police will result in boundaries continuing to fundamentally inform police work in South Africa This book will be of interest to scholars

and students interested in policing in post colonial societies characterised by high levels of violence as well as police work and police militarization

Peptides and Peptide-based Biomaterials and their Biomedical Applications Anwar Sunna, Andrew Care, Peter L. Bergquist, 2017-10-26 Solid binding peptides have been used increasingly as molecular building blocks in nanobiotechnology as they can direct the assembly and functionalisation of a diverse range of materials and have the ability to regulate the synthesis of nanoparticles and complex nanostructures Nanostructured materials such as sheet fibril forming peptides and helical coiled coil systems have displayed many useful properties including stimulus responsiveness modularity and multi functionality providing potential technological applications in tissue engineering antimicrobials drug delivery and nanoscale electronics The current situation with respect to self assembling peptides and bioactive matrices for regenerative medicine are reviewed as well as peptide target modeling and an examination of future prospects for peptides in these areas

Folded Synthetic Peptides for Biomedical Applications Alessandro Contini, Jutta Eichler, 2019-09-26 Folded peptides and peptide motifs within proteins are abundant in living organisms where they are essential for the biological activities of the peptides and proteins During the past decades much research has been dedicated to understanding the rules that govern peptide folding Simultaneously a range of strategies have been established for the conformational stabilization of bioactive peptides as well as for the de novo design of peptides with defined secondary structures These methods are either based on the chemical modification of the peptide backbone such as cyclization and stapled peptides or on the use of a range of non proteinogenic amino acids that in a defined sequential arrangement induce secondary structures peptides Such building blocks include D and other non proteinogenic amino acids as well as beta and gamma amino acids This Research Topic comprises a collection of papers by an international group of 77 scientists with a background in synthetic analytical computational and medicinal chemistry as well as in biochemistry and pharmacology Their research is presented here in a total of 11 papers 8 original research reports and 3 reviews covering diverse aspects of folded synthetic peptides These studies include the preparation and characterization of new peptide monomers with interesting folding properties the synthesis and conformational analysis of non natural peptides as well as the use of folded peptidomimetics as molecular switches Additionally a range of biomedical applications such as antimicrobial anti inflammatory antiangiogenic and immune stimulating activities are also reported We hope this eBook will be a source of inspiration and knowledge for scientist in various disciplines related to folded peptides and their many applications as well as for those who want to learn more about this fascinating field of research

Police Integrity in South Africa Sanja Kutnjak Ivkovich, Adri Sauerma, 2020-04-29 Policing in South Africa has gained notoriety through its extensive history of oppressive law enforcement In 1994 as the country s apartheid system was replaced with a democratic order the new government faced the significant challenge of transforming the South African police force into a democratic police agency the South African Police Service SAPS that would provide unbiased policing to all the country s people More than two

decades since the initiation of the reforms it appears that the SAPS has rapidly developed a reputation as a police agency beset by challenges to its integrity This book offers a unique perspective by providing in depth analyses of police integrity in South Africa It is a case study that systematically and empirically explores the contours of police integrity in a young democracy Using the organizational theory of police integrity the book analyzes the complex set of historical legal political social and economic circumstances shaping police integrity A discussion of the theoretical framework is accompanied by the results of a nationwide survey of nearly 900 SAPS officers probing their familiarity with official rules their expectations of discipline within the SAPS and their willingness to report misconduct The book also examines the influence of the respondents race gender and supervisory status on police integrity Written in a clear and direct style this book will appeal to students and scholars of criminology policing sociology political science as well as to police administrators interested in expanding their knowledge about police integrity and enhancing it in their organizations Suid-Afrikaanse Hofverslae ,2015 **Chemical Abstracts** ,1912 **Africa Recovery** ,1995 **Research Report** ,2001 **A Critical Analysis of the Poverty Reduction Strategy Papers (PRSPs): The case of Kenya** ,2003 *A Dictionary of Natural Products* George Macdonald Hocking,1997 Covers terms relating to natural non artificial crude drugs from the vegetable animal and mineral kingdoms and their uses *Africa Insight* ,2003 **Index to Theses with Abstracts Accepted for Higher Degrees by the Universities of Great Britain and Ireland and the Council for National Academic Awards** ,2008 Dissertation Abstracts International ,1983-12 **Chemoreception Abstracts** ,1975 **Farm Building News** ,1979 **Hobbies** Otto C.
