[Propensity Score Methods and Applications](#) Haiyan Bai, M. H. Clark,2018-11-20 A concise introductory text Propensity Score Methods and Applications describes propensity score methods PSM and how they are used to balance the distributions of observed covariates between treatment conditions as a means to reduce selection bias This new QASS title specifically focuses on the procedures of implementing PSM for research in social sciences instead of merely demonstrating the effectiveness of the method Using succinct and approachable language to introduce the basic concepts of PSM authors

Haiyan Bai and M H Clark present basic concepts assumptions procedures available software packages and step by step examples for implementing PSM using real world data with exercises at the end of each chapter allowing readers to replicate examples on their own     *Review of Marketing Research* Naresh K. Malhotra,2017-10-19 This book provides current comprehensive state of the art articles in review of marketing research It contains a diverse set of review articles covering areas such as emotions beauty business and marketing strategy organizational performance reference scales and correspondence analysis     **Understanding Regression Analysis** Larry D. Schroeder,David L. Sjoquist,Paula E.

Stephan,2016-10-20 Understanding Regression Analysis An Introductory Guide presents the fundamentals of regression analysis from its meaning to uses in a concise easy to read and non technical style It illustrates how regression coefficients are estimated interpreted and used in a variety of settings within the social sciences business law and public policy Packed with applied examples and using few equations the book walks readers through elementary material using a verbal intuitive interpretation of regression coefficients associated statistics and hypothesis tests The Second Edition features updated examples and new references to modern software output     *Mediation Analysis* Dawn Iacobucci,2008-04 Explores even the fundamental assumptions underlying mediation analysis     **American Book Publishing Record** ,2005     *Thinking about*

*Space* Hannelore Vanhaverbeke,2008 The incorporation of new provinces in the Roman Empire both in the East and the West coincides with marked changes in urban infrastructure and layout and in rural settlement patterns as is attested by numerous excavations and surveys While scholars agree on the quantitative and qualitative transformation of cities and their territories such as an increase in the number of monumental buildings and rural sites a significantly higher degree of urbanization a more sophisticated lifestyle etc little research has been devoted to the ways in which these structures and sites and their internal components were organized spatially The eleven papers presented in this volume result from workshops organized by the international interdisciplinary ROCT network Roman Crafts and Trade From a heterogeneous chronological and geographical background the peer reviewed collection of papers focuses on one central issue the use of space in the Roman world Space on all sorts of levels shapes human life now as in the past The edited volume contrasts two dimensions of space the macro scale at regional level and the micro scale at local level Moreover the selected papers are written against a variety of methodological backgrounds and practices including excavation and surveying strategies contextual analysis and material culture studies The variety of content approaches and interpretation results from the conscious deliberation that this is the only possible way to think about space in the Roman world The contributions cover the Roman world with its provinces throughout the long period in history which can be considered Roman in each of the study areas Frank Vermeulen is professor of Roman archaeology and of archaeological method at Ghent University His research interests cover settlement history and landscape development in the western Mediterranean during Antiquity Raymond Brulet est Professeur d Archeologie nationale a l Universite catholique de Louvain Louvain la Neuve Il est specialise dans la

periode de l'Antiquité tardive et dans le domaine de l'Archeométrie Hannelore Vanhaverbeke is a Postdoctoral Fellow of the Research Foundation Flanders FWO Belgium she is the field director of the annual rural surveys near Sagalassos and teaches at the Catholic University of Leuven Belgium Jeroen Poblome is a research professor at the Katholieke Universiteit Leuven He studies artisanal production organization and exchange patterns and mechanisms in the ancient eastern Mediterranean with fieldwork in Boeotia Pisidia and Cilicia

**The SAGE Encyclopedia of Social Science Research Methods** Michael Lewis-Beck, Alan E. Bryman, Tim Futing Liao, 2003-12-15 This defining work will be valuable to readers and researchers in social sciences and humanities at all academic levels As a teaching resource it will be useful to instructors and students alike and will become a standard reference source Essential for general and academic collections CHOICE This Encyclopedia provides readers with authoritative essays on virtually all social science methods topics quantitative and qualitative by an international collection of experts Organized alphabetically the Encyclopedia of Social Science Research Methods covers research terms ranging from different methodological approaches to epistemological issues and specific statistical techniques Written to be accessible to general readers the Encyclopedia entries do not require advanced knowledge of mathematics or statistics to understand the purposes or basic principles of any of the methods To accomplish this goal there are two major types of entries definitions consisting of a paragraph or two to provide a quick explanation of a methodological term and topical treatments or essays that discuss the nature history applications and implications of using a certain method including suggested readings and references Readers are directed to related topics via cross referenced terms that appear in small capital letters By assembling entries of varied origins and serving different research purposes readers will be able to benefit from this immense source of methodological expertise in advancing their understanding of research With three volumes and more than 900 signed entries the Encyclopedia of Social Science Research Methods will be a critical addition to any social science library
