The book addresses knowledge of the natural and physical sciences including biology and chemistry while introducing readers to the application of science to the justice system. New topics added to this edition include coverage of the formation and work of the NIST Organization of Scientific Area Committees (OSACs), new sections on forensic palynology, pollen, forensic taphonomy, the opioid crisis, forensic genetics and genealogy, recent COVID 19 fraud schemes perpetrated by cybercriminals and a wholly new chapter on forensic psychology.
