Breathing with Luce Irigaray Lenart Skof,Emily A. Holmes,2013-10-10 An innovative collection examining the implications of the Age of Breath a spiritual shift in human awareness to the needs of the other through breathing **The Life of Breath in Literature, Culture and Medicine** David Fuller,Corinne Saunders,Jane Macnaughton,2021-10-01 This open access book studies breath and breathing in literature and culture and provides crucial insights into the history of medicine health and the emotions the foundations of beliefs concerning body spirit and world the connections between breath and creativity and the phenomenology of breath and breathlessness Contributions span the classical medieval early modern Romantic Victorian modern and contemporary periods drawing on medical writings philosophy theology and the visual arts as well as on literary historical and cultural studies The collection illustrates the complex significance and symbolic power of breath and breathlessness across time breath is written deeply into ideas of nature spirituality emotion creativity and being and is inextricable from notions of consciousness spirit inspiration voice feeling freedom and movement The volume also demonstrates the long standing connections between breath and place politics and aesthetics illuminating both contrasts and continuities

Philosophy, Sophistry, Antiphilosophy Matthew R. McLennan,2015-10-22 Alain Badiou s work in philosophy though daunting has gained a receptive and steadily growing Anglophone readership What is not well known is the extent to which Badiou s positions vis vis ontology ethics politics and the very meaning of philosophy were hammered out in dispute with the late Jean Fran ois Lyotard Matthew R McLennan s Philosophy Sophistry Antiphilosophy is the first work to pose the question of the relation between Lyotard and Badiou and in so doing constitutes a significant intervention in the field of contemporary European philosophy by revisiting one of its most influential and controversial forefathers Badiou himself has underscored the importance of Lyotard for his own project might the recent resurgence of interest in Lyotard be tied in some way to Badiou s comments Or deeper still might not Badiou s philosophical Platonism beg an encounter with philosophy s other the figure of the sophist that Lyotard played so often and so ably Posing pertinent questions and opening new discursive channels in the literature on these two major figures this book is of interest to those studying philosophy rhetoric literary theory cultural and media studies

**Early Phenomenology** Brian Harding,Michael R. Kelly,2016-06-30 Taking the term phenomenologist in a fairly broad sense Early Phenomenology focuses on those early exponents of the intellectual discipline such as Buber Ortega and Scheler rather than those thinkers that would later eclipse them indeed the volume precisely means to bring into question what it means to be a phenomenologist a category that becomes increasingly more fluid the more we distance ourselves from the gravitational pull of philosophical giants Husserl and Heidegger In focusing on early phenomenology this volume seeks to examine the movement before orthodoxies solidified More than merely adding to the story of phenomenology by looking closer at thinkers without the same fame as Husserl or Heidegger and the representatives of their legacy the essays relate to one of the earlier thinkers with figures that are either

more contemporary or more widely read or both Beyond merely filling in the historical record and reviving names the chapters of this book will also give contemporary readers reasons to take these figures seriously as phenomenologists radically reordering of our understanding of the lineage of this major philosophical movement *Enacting Musical Time* Mariusz Kozak,2020 A compelling approach among works on temporality phenomenology and the ecologies of the new sound worlds Enacting Musical Time argues that musical time is itself the site of the interaction between musical sounds and a situated embodied listener created by the moving bodies of participants engaged in musical activities *What Is Sexual Difference?* Mary C. Rawlinson,James Sares,2023-06-06 Luce Irigaray has written that sexual difference is one of the major philosophical issues if not the issue of our age Spanning metaphysics phenomenology and psychoanalysis her work examines how sexual difference structures being and subjectivity organizes our experience of the world and affects the images and discourses involved in knowledge production and practical action No other philosopher has paid such careful attention to the consequences of the elision of sexual difference in philosophical thought However at a time when notions of sexual and gender difference are hotly contested Irigaray s thought has often been dismissed as essentialist or reductively binary This book brings together leading scholars to consider the philosophical implications of Irigaray s writing on sexual difference particularly for issues of gender and race Their essays directly confront the charge of essentialism exploring how Irigaray s thought opens new possibilities for understanding the complexity of gender identities including nonbinary and trans experiences as well as alternative configurations of masculinity and femininity Though Irigaray is sometimes accused of a failure to appreciate racial difference contributors show the productive role of her work in thinking race This book also illuminates how Irigaray s work provides creative practices that help realign human experience and our relations with nature and each other *Conversations* Luce Irigaray,Stephen Pluhá?ek,2008-11-08 An important collection of interviews in which Luce Irigaray discusses the full range of her work and ideas with leading academics in the fields of Continental Philosophy Feminist Theory and Critical Theory **Atmospheres of Breathing** Lenart Škof,Petri Berndtson,2018-03-19 As a physiological or biological matter breath is mostly considered to be mechanical and thoughtless By expanding on the insights of many religions and therapeutic practices which emphasize the cultivation of breath the contributors argue that breath should be understood as fundamentally and comprehensively intertwined with human life and experience Various dimensions of the respiratory world are referred to as atmospheres that encircle and connect human existence coexistence and the world Drawing from a number of traditions of breathing including from Indian and East Asian religion and philosophy the book considers breath in relation to ontological hermeneutical phenomenological ethical and aesthetic concerns in philosophy The wide ranging topics include poetry theater environmental issues and health feminism and media studies **Restoration of Breath** Sreenath Nair,2007-01-01 Breath is the flow of air between life and death Breathing is an involuntary action that functions as the basis of all human activities intellectual artistic emotional and physical Breathing is the first autonomous

individual action that brings life into being and the end of breathing is the definitive sign of disappearance Starting from the question how breathing affects the body levels of consciousness perception and meaning this book for the first time investigates through a variety of philosophical critical and practical models directly and indirectly related to breath aiming to establish breath as a category in the production and reception of meaning within the context of theatre It also explores the epistemological psycho physical and consciousness related implications of breath Aristotle dedicated a volume to breath exploring and enquiring in to its presocratic roots For Heidegger breath is the temporal extension of Being Artaud's theatricality is not representational but rather rooted in the actor's breathing Jacques Derrida and Luce Irigaray investigate the phenomenon of breath in order to explain the nature of human consciousness Breath as a philosophical concept and as a system of practice is central to Indian thoughts performance medicine martial arts and spirituality As the book argues individual consciousness is a temporal experience and breath is the material presence of time in the body Cessation of breath on the contrary creates pause in this flow of the endless identification of signifiers When breath stops time stops When time stops there is a gap in the chain of the presence of signifiers and this gap is a different perceptual modality which is neutral in Zero velocity Restoration of Breath is a practical approach to this psychophysical experience of consciousness in which time exists only in eternity and void beyond memory and meaning
