Bredero Poet En Amsterdammer:

Sex and Drugs Before Rock 'n' Roll Benjamin Roberts, 2012 Sex and Drugs Before the Rock n Roll is a fascinating volume that presents an engaging overview of what it was like to be young and male in the Dutch Golden Age. Here well known cohorts of Rembrandt are examined for the ways in which they expressed themselves by defying conservative values and norms. This study reveals how these young men rebelled breaking from previous generations letting their hair grow long wearing colorful clothing drinking excessively challenging city guards being promiscuous smoking and singing lewd songs. Cogently argued this study paints a compelling portrait of the youth culture of the Dutch Golden Age at a time when the rising popularity of print made dissemination of new cultural ideas possible while rising incomes and liberal attitudes created a generation of men behaving badly.

The Literature of the Arminian Controversy Freya Sierhuis, 2015-12-03 The Literature of the Arminian Controversy highlights the importance of the Arminian Controversy 1609-1619 for the understanding of the literary and intellectual culture of the Dutch Golden Age. Taking into account a wide array of sources ranging from theological and juridical treatises to pamphlets plays and libel poetry it offers not only a deeper contextualisation of some of the most canonical works of the period such as the works of Dirck Volckertsz Coornhert Hugo Grotius and Joost van den Vondel but also invites the reader to rethink the way we view the relation between literature and theology in early modern culture. The book argues how the controversy over divine predestination acted as a catalyst for literary and cultural change tracing the impact of disputed ideas on grace and will religious toleration and the rights of the civil magistrate in satirical literature poetry and plays. Conversely it reads the theological and political works as literature by examining the rhetoric and tropes of religious controversy. Analysing the way in which literature shapes the political and religious imaginary it allows us to look beyond the history of doctrine or the history of political rights to include the emotive and imaginative power of such narrative myth and metaphor.

The Princeton Handbook of Multicultural Poetries Terry V.F. Brogan, 2021-04-13 Drawn from the acclaimed New Princeton Encyclopedia of Poetry and Poetics the articles in this concise new reference book provide a complete survey of the poetic history and practice in every major national literature or cultural tradition in the world. As with the parent volume which has sold over 10 000 copies since it was first published in 1993 the intended audience is general readers journalists students teachers and researchers. The editor's principle of selection was balance and his goal was to embrace in a structured and reasoned way the diversity of poetry as it is known across the globe today. In compiling material on 106 cultures in 92 national literatures the book gives full coverage to Indo-European poetries all the major Celtic Slavic Germanic and Romance languages as well as other obscure ones such as Hittite the ancient middle Eastern poetries Hebrew Persian Sumerian and Assyrian Babylonian subcontinental Indian poetries the widest linguistic diversity Asian and Pacific poetries Chinese Japanese Korean Vietnamese Mongolian and half a dozen others continental American poetries all the modern Western cultures and native Indian in North Central and South

Price, 1974 *Dynamics of Neo-Latin and the Vernacular*, 2014-09-18 *Dynamics of Neo Latin and the Vernacular* offers a collection of studies that deal with the cultural exchange between Neo Latin and the vernacular and with the very cultural mobility that allowed for the successful development of Renaissance bilingual culture Studying a variety of multilingual issues of language and poetics of translation and transfer its authors interpret Renaissance cross cultural contact as a radically dynamic ever shifting process of making cultural meaning With renewed attention for suitable theoretical and methodological frames of reference *Dynamics of Neo Latin and the Vernacular* firmly resists literary history's temptation to pin down the Early Modern relationship between languages literatures and cultures in favour of stressing the sheer variety and variability of that relationship itself Contributors are Jan Bloemendal Ingrid De Smet Annet den Haan Tom Deneire Beate Hintzen David Kromhout Bettina Noak Ingrid Rowland Johanna Svensson Harm Jan van Dam Guillaume van Gemert Eva van Hooijdonk and mm Y ksel
