Mora,David R. Diaz,2004 Examines the failure of traditional research methods to address major social needs in Latino communities promoting instead a participatory action approach to research that is socially and scientifically meaningful Clinical Case Formulations Barbara Lichner Ingram,2006-06-23 A step by step model for individualized case conceptualization This innovative new guide addresses the essential question facing every therapist with a new client How do I create a treatment plan that is the best match for my client This unique resource provides a systematic method to integrate ideas skills and techniques from different theoretical approaches empirical research and clinical experience to create a case formulation that is tailor made for the client Clinical Case Formulations is divided into three parts Getting Started provides an overview that sets forth a framework for case formulation and data gathering 28 Core Clinical Hypotheses offers a meta framework embracing all theories orientations and mental health intervention models and presents clinical hypotheses within seven categories Biological Hypotheses Crisis Stressful Situations and Transitions Behavioral and Learning Models Cognitive Models Existential and Spiritual Models Psychodynamic Models and Social Cultural and Environmental Factors These hypotheses are combined and

integrated to develop a coherent conceptualization of the client's problems Steps to a Complete Case Formulation provides a structured framework known as the Problem Oriented Method POM Using the POM and integrating multiple hypotheses the therapist learns how to think intelligently critically and creatively in order to develop a tailor made treatment plan A list of thirty three standards for evaluating the application of this method is provided With this practical guide you will learn to conceptualize your clients needs in ways that lead to effective treatment plans while finding the tools for troubleshooting when interventions fail to produce expected benefits

Using the Strengths Perspective in Social Work Practice Morley D. Glicken, 2004 Using the Strengths Perspective in Social Work Practice explains the major ideas behind the strengths perspective and then demonstrates through case studies and discussion how helping professionals can apply the strengths perspective in practice The book is very research oriented and includes a great deal of new research on topics such as natural healing in addicted clients self management of mental illness a positive view of change in clients diagnosed with mental illness the effectiveness of self help groups research on resilience in children and adults who have experienced life traumas research on the importance of spirituality and religious involvement and new research data on the helping process Most of research used in this book has been published since 2000 The book has a unique feature a critical response section at the end of every chapter in which clinicians and researchers have an opportunity to critically respond to ideas presented This in effect provides an evidence based approach to the material in the book Because the book shows the application of the strengths perspective in practice Dr Glicken includes examples showing how to apply the approach with complex client problems including abuse domestic violence mental illness addictions and other complex problems often dealt with by clinicians in the helping professions The book is written for the helping professions and includes the work of Martin Seligman in Psychology on learned optimism Robert Putnam on community life in America and Dennis Saleebey one of the original writers on the strengths perspective in social work
