10. Of the many awakenings Edna undergoes in the novel, which are most important to her progress? Which may be considered "rude" or unexpected awakenings?
11. Explore the full implications of the various images of birds in the novel. How do the different species of birds mentioned—parrots, mockingbirds, pigeons—symbolize different ideas?
12. Throughout the novel, Edna feels caught between the way others see her and the way she sees herself. Identify several moments in which this struggle is apparent. How does the text portray Edna's growing awareness of these contradicting views?
13. Some critics view Edna's suicide at the end of the novel as a failure to complete her escape from convention—an inability to defy society once stripped of the motivation of a man by her side. Others view her suicide as a final awakening, a decision to
