Micozzi,2010-04-01 Focusing on emerging therapies and those best supported by clinical trials and scientific evidence Fundamentals of Complementary and Alternative Medicine describes some of the most prevalent and the fastest growing CAM therapies in use today Prominent author Dr Marc Micozzi provides a complete overview of CAM creating a solid foundation and context for therapies in current practice Coverage of systems and therapies includes mind body and spirit traditional Western healing and traditional ethnomedical systems from around the world Discussions include homeopathy massage and manual therapies chiropractic a revised chapter on osteopathy herbal medicine aromatherapy naturopathic medicine and nutrition and hydration With its wide range of topics this is the ideal CAM reference for both students and practitioners An evidence based approach focuses on treatments best supported by clinical trials and scientific evidence Coverage of CAM therapies and systems includes those most commonly encountered or growing in popularity so you carefully evaluate each treatment Global coverage includes discussions of traditional healing arts from Europe Asia Africa and the Americas Longevity in the market makes this a classic trusted text Expert contributors include well known writers such as Kevin Ergil Patch Adams Joseph Pizzorno Victor Sierpina and Marc Micozzi himself Suggested readings and references in each chapter list the best resources for further research and study New expanded organization covers the foundations of CAM traditional Western healing and traditional ethnomedical systems from Asia Africa and the Americas putting CAM in perspective and making it easier to understand CAM origins and contexts NEW content includes legal and operational issues in integrative medicine creative and expressive arts therapies ecological pharmacology hydration mind body thought and practice in America osteopathy reflexology South American healing traditional medicines of India and Unani medicine Revised and updated chapters include aromatherapy classical acupuncture energy medicine biophysical devices electricity light and magnetism massage and touch therapies traditional osteopathy reflexology vitalism and yoga New research studies explain how and why CAM therapies work and also demonstrate that they do work in areas such as acupuncture energy healing and mind body therapies Expanded content on basic sciences includes biophysics ecology ethnomedicine neurobiology and pschoneuroimmunology providing the scientific background needed to learn and practice CAM and integrative medicine Expanded coverage of nutrition and hydration includes practical information on Vitamin D and healthy hydration with fluid and electrolytes

WHO benchmarks for the practice of Unani medicine world health organization,2022-02-11 The WHO benchmarks for the practice of Unani medicine defines the minimum requirement criteria for establishing practice in Unani medicine in WHO Member States by providing minimum reference standards for safety and

quality of Unani medicine practice. This document provides WHO Member States with the general and minimum technical requirements for quality assurance and regulation of Unani medicine practice. It is aligned with the objectives of the WHO Traditional Medicine Strategy 2014-23 and reflects the consensus reached through established WHO processes from the community of practitioners in Unani medicine, health service providers, academics, health system managers and regulators. It provides information and describes levels of practice in Unani medicine, presents the different categories of Unani health service providers, describes the requirements for infrastructure and facilities as well as relevant requirements and considerations in the practice of Unani health interventions, of the health products and medical devices used in Unani medicine practice, emphasizing the key elements for the safe practice of Unani medicine. It also presents the requirements and relevant considerations of regulatory, legal and ethical aspects of Unani medicine practice and suggests the process for management of related health data.

WHO benchmarks for the training of Unani medicine world health organization, 2022-02-11. The WHO benchmarks for the training of Unani medicine is an update of its previous version published in 2010. It defines the minimum requirement criteria for establishing training of Unani medicine in WHO Member States. It provides the fundamental knowledge requirements for all those involved in practice and training of Unani medicine, including safety issues related to its clinical application and medicinal preparation. The document shall serve as a reference to national authorities to establish, strengthen, regulatory standards to ensure qualified training and practice of Unani medicine. The document is aligned with the objectives of the WHO Traditional Medicine Strategy 2014-23. It reflects consensus arrived through established WHO processes from the community of practitioners in Unani medicine, health service providers, academics, health system managers and regulators. The document provides information on types of training, including training requirements for Unani medicine practitioners and associate Unani medicine service providers, presents the requirements on competency based knowledge and skills for Unani medicine practitioners and associate Unani medicine providers, and provides content and structures for different training programmes. This update differs from the previous edition in its description of category of health work force, type of training offered and information integrating category of training with the levels of practice described in the WHO Benchmarks for the Practice of Unani medicine.
