A quick note from John: Baby Animals is the second in a series of Nature Books for Children. Every time I write a book I'm fascinated by what I learn. For example I had no idea that a baby giraffe falls 6 feet and hits its head on the ground when it's born. Nature is just so weird sometimes. It's my hope that I can pass on some of my love and enthusiasm for nature on to you and your children. I also write in hopes that your family enjoys reading these books and talking about them together giving you the opportunity to teach strong values to your children and grow closer as a family. Above all I truly hope you are inspired to appreciate this beautiful world we live in. Here are some of the comments about my first book that people left on FaceBook:

Hey John I just downloaded and read your book to my daycare kids. They LOVED it. Especially my little guy he's a alllll nature can't keep him inside. I'm sharing with all my FB peeps and my daycare parents as well. Way to go and good for you. Best wishes John.

I read your book prior to letting the kids read it. It was a good read and I definitely learned some things myself. I look forward to the kids reading it.
