**The Great Expectations School** Dan Brown, 2011-09 At the age of twenty two Dan Brown came to P S 85 as an eager fresh faced teacher He was even as signed his own class 4 217 Unbeknownst to him 4 217 was the designated dumping ground for all fourth grade problem cases and his students would prove to be more challenging than he could have ever anticipated Intent on being a caring dedicated teacher but confronted with unruly children absent parents and a failing administration Dan was pushed to the limit time and again he found himself screaming with rage punching his fist through a blackboard out of sheer frustration often just wanting to give up and walk away Yet in this seeming chaos he slowly learned from the more seasoned teachers at the school and from his own mistakes how to discipline teach and make a difference The Great Expectations School is the touching story of Class 4 217 and their teacher Mr Brown But more than that it is the revealing story of a broken educational system and all those struggling within and fighting against it

**Naked City** Sharon Zukin, 2009-12-18 As cities have gentrified educated urbanites have come to prize what they regard as authentic urban life aging buildings art galleries small boutiques upscale food markets neighborhood old timers funky ethnic restaurants and old family owned shops These signify a place s authenticity in contrast to the bland standardization of the suburbs and exurbs But as Sharon Zukin shows in Naked City the rapid and pervasive demand for authenticity evident in escalating real estate prices expensive stores and closely monitored urban streetscapes has helped drive out the very people who first lent a neighborhood its authentic aura immigrants the working class and artists Zukin traces this economic and social evolution in six archetypal New York areas Williamsburg Harlem the East Village Union Square Red Hook and the city s community gardens and travels to both the city s first IKEA store and the World Trade Center site She shows that for followers of Jane Jacobs this transformation is a perversion of what was supposed to happen Indeed Naked City is a sobering update of Jacobs legendary 1961 book The Death and Life of Great American Cities Like Jacobs Zukin looks at what gives neighborhoods a sense of place but argues that over time the emphasis on neighborhood distinctiveness has become a tool of economic elites to drive up real estate values and effectively force out the neighborhood characters that Jacobs so evocatively idealized

**Creating Good Jobs** Paul Osterman, 2020-01-28 Experts discuss improving job quality in low wage industries including retail residential construction hospitals and long term healthcare restaurants manufacturing and long haul trucking Americans work harder and longer than our counterparts in other industrialized nations Yet prosperity remains elusive to many Workers in such low wage industries as retail restaurants and home construction live from paycheck to paycheck juggling multiple jobs with variable schedules few benefits and limited prospects for advancement These bad outcomes are produced by a range of industry specific factors including intense competition outsourcing and subcontracting failure to enforce employment standards overt discrimination outmoded production and management systems and inadequate worker voice In this volume experts look for ways to improve job quality in the low wage sector They offer in depth examinations of

specific industries long term healthcare hospitals and outpatient care retail residential construction restaurants manufacturing and long haul trucking that together account for more than half of all low wage jobs The book s sector view allows the contributors to address industry specific variations that shape operational choices about work Drawing on deep industry knowledge they consider important distinctions within and between these industries the financial institutional and structural incentives that shape the choices employers make and what it would take to make more jobs better jobs

approaches By engaging students through their stuff this book moves beyond teaching about sociology to helping instructors teach the practice of sociological thinking It moves beyond describing what sociology is so that students can practice what sociological thinking can do This pedagogy also posits a relationship between teacher and learner that is bi directional Many students feel a sense of authority in various areas of consumer culture and they often enjoy sharing their knowledge with fellow students and with their instructor Opening up the sociology classroom to discussion of these topics validates students expertise on their own life worlds Teachers in turn gain insight from the goods services and cultural expectations that shape students lives While innovative the book has been carefully crafted to make it as useful and flexible as possible for instructors aiming to build core sociological foundations in a single semester A map on pages ii iii identifies core sociological concepts covered so that a traditional syllabus as well as individual lectures can easily be maintained Theory method and active learning exercises in every chapter constantly encourage the sociological imagination as well as the doing of sociology
