Semester 1 Microbiology As the world waits in fear world health organizations race to develop a vaccine for the looming bird flu epidemic a threat that has forced international federal and local governments to begin planning for a possible pandemic and the widespread death and devastation which would follow Will the world find an answer in time Or will we see this threat ravage populations as others have before in 1918 with influenza in the late 18th century with yellow fever or the horrific black death or bubonic plague in 1347 AD Are these viruses examples of evolution Did God make microbes by mistake Are they accidents of evolution out of the primordial soup These timely questions are examined throughout The Genesis of Germs It seems that a new and more terrible disease is touted on the news almost daily The spread of these scary diseases from bird flu to SARS to AIDS is a cause for concern and leads to questions such as Where did all these germs come from and how do they fit into a biblical world view What kind of function did these microbes have before the Fall Does antibiotic resistance in bacteria prove evolution How can something so small have such a huge deadly impact on the world around us Professor Alan Gillen sheds light on these and many other questions in this revealing and detailed book He shows how these constantly mutating diseases are proof for devolution rather than evolution and how all of these germs fit into a biblical world view Dr Gillen shows how germs are symptomatic of the literal Fall and Curse of creation as a result of man's sin and the hope we have in the coming of Jesus Christ

Semester 2 Life Science Study clear biological answers for how science and Scripture fit together to honor the Creator Have you ever wondered about such captivating topics as genetics the roll of natural selection embryonic development or DNA and the magnificent origins of life Within Building Blocks in Life Science you will discover exceptional insights and clarity to patterns of order in living things including the promise of healing and new birth in Christ Study numerous ways to refute the evolutionary worldview that life simply evolved by chance over millions of years The evolutionary worldview can be found filtered through every topic at every age level in our society It has become the overwhelmingly accepted paradigm for the origins of life as taught in all secular institutions This dynamic education resource helps young people not only learn science from a biblical perspective but also helps them know how to defend their faith in the process      Blended Learning Solutions in Higher Education Neil Hughes, 2024-09-24 Blended Learning Solutions in

Higher Education explores the origins empirical foundations and implementation of blended learning in colleges and universities Since emerging as a third way solution to traditional and virtual higher education models blended learning has become a predominant learning modality in an era of rapid technological proliferation Offering an alternative to longstanding yet flawed methodologies and assumptions about its validity this book conceptualizes blended learning as a complex social practice mediated by knowledge institutional rules policies and norms as well as material factors such as technology and physical spaces The book s original MIRACLE framework offers a research grounded highly practical guide to blended learning design improvement and long term efficacy From demystified history and heuristics to digitized platforms and course content to reimagined governance and regulations these insights provide a thoughtful exemplar of blended learning s challenges and affordances along with a firm basis for integrating face to face and online learning teaching and assessment innovatively and creatively
