The Interethnic Stalemate in Romania: Origins and Risks

Abstract. The accommodation of ethnic diversity has played an important role in the development of the Romanian political system following the fall of communism. The first decade of transition witnessed a sinuous path of interethnic relations between the Romanian majority and the Hungarian minority, from violent clashes and implementation of minority unfriendly legislation to minority inclusion in the national government. The second stage, associated with the efforts leading to Romania's Euro-Atlantic integration, brought a change in tactics from the Hungarian politicians. The author presents a general overview of how the political game between the Romanian state and the Hungarian minority developed in the last two decades and emphasises the legislative dimension of the disputes. The main argument of this article is that, although the interethnic relations have been normalised, the legal dispute is in a stalemate, which, if unresolved, threatens the current stability in the longer term.

George Jiglău works as a researcher at the Department of Political Science at Babeş-Bolyai University, Cluj.

Introduction

The Romanian political system and the political mobilization of the Hungarian minority create a fertile ground on which to explore some of the most important theoretical expectations regarding political mobilization of ethnic minorities as such. Romania encompasses a Hungarian minority of approximately 6% of the population and includes a growing Roma population, officially considered to be at around 3% of the population however the exact size is still unaccounted for. In total, Romania officially recognizes 19 ethnic minorities,¹ offering a perfect context in which to study the interaction between a large ethnic majority – over 80% of the population is ethnic Romanian – and either small minorities with historical and cultural relevance or large minorities with strong political representation, claims, and ambitions. Two other factors increase Romania's relevance

Dampening the Powder Keg Mihaela Mihailescu, 2007 Democratization in Eastern Europe prompted warnings about the risks of the process for the many multi ethnic countries of the region Yet the Yugoslav tragedy remains the exception rather than the rule in understanding interethnic relations This work analyzes post communist Romania and Slovakia two multi ethnic countries that have steered clear of interethnic violence despite the absence of institutions specially designed to manage interethnic relations despite the exclusion of ethnic minorities from government and despite quasi majoritarian political environments In the two studied cases interethnic opposition coalitions resulted from the adoption of basic democratic political institutions which constrained actors across the ethnic divide to cooperate More broadly this work questions the notion that multiethnic countries are unlikely candidates for peaceful democratization and suggests that as long as participation in democratic processes either in government or in opposition is possible for ethnic minorities violent conflict can be averted The argument is of interest to both scholars of conflict and peace studies and to policy makers
