

## Environmental Justice and Offshore Wind in the New York Bight

Snapshot of BOEM's EJ Engagement Activities Related to the Draft Programmatic Environmental Impact Statement for the New York Bight Offshore Wind Lease Areas

### Overview

For the New York Bight Programmatic Environmental Impact Statement (PEIS), BOEM is evaluating potential environmental impacts from offshore wind activities in the New York and New Jersey region. Meaningfully engaging with environmental justice (EJ) populations and community-based organizations (CBOs) is necessary to understand, identify, and avoid potential local impacts from development of the six New York Bight lease areas.

BOEM recognizes that potential impacts from offshore wind development on EJ communities could include:

- Public health and safety effects
- Changes in the local economy, including jobs and income
- Changes in access to marine spaces and resources

In response to community requests for BOEM to engage early and often, BOEM has been hosting a quarterly EJ Forum for the New York Bight region. BOEM co-developed this series with participants to both meet BOEM's needs to evaluate potential environmental impacts, and to provide a convening space to advance broader equity considerations related to offshore wind and community goals. This document provides an overview of engagement efforts to date as well as future opportunities for providing feedback related to environmental justice and the Draft PEIS.

### History of the NY & NJ Offshore Wind Environmental Justice Forum

In June 2022, in advance of the scoping period of the Draft PEIS, BOEM hosted **three meetings** – one with state agencies, one with federal agencies, and one with CBOs – to discuss topics around EJ and offshore wind.

These three meetings informed the topics discussed at a **NY & NJ Environmental Justice Roundtable Convening** on offshore wind held on July 21, 2022. During the convening, BOEM heard the need for regular engagement with agencies and organizations working on EJ issues and offshore wind in the NY & NJ region throughout the preparation of the PEIS.

In response to this input, **BOEM established the Environmental Justice Forum (EJF)**, which has hosted quarterly meetings over the course of the Draft PEIS development. See below for a recap of key issues covered in previous meetings:
