Acquaintances Old New Among Reformers:

Acquaintances, Old and New, Among Reformers Olympia Brown, 1911 An autobiographical account of Olympia Brown's work in the early women's rights movement. It is well written and easy to read. Its treatment of the events surrounding the early suffrage campaign is a bit superficial but it might provide a good overview for high school students. *Encyclopedia of Women Social Reformers* Helen Rappaport, 2001-12-06 The first comprehensive guide to women activists from every part of the world illuminating the broad range of women's struggles to reform society from the 18th century to the present. Despite being marginalized, disenfranchised, impoverished and oppressed, women have always stepped forward in disproportionate numbers to lead movements for social change. This two-volume encyclopedia documents the visions, struggles and lives of women who have changed the world. This encyclopedia celebrates the lives and achievements of nearly 300 women from around the globe, women who have bravely insisted that the way things are is not the way they have to be. Nadeshda Krupskaya, the wife of Lenin, spearheaded the drive against illiteracy in post-revolutionary Russia. American Dorothy Day founded the Catholic worker movement. Begum Rokeya Hossain organized a girls' school in Calcutta in 1911. Rachel Carson launched the modern environmental movement with her book *Silent Spring*. The stories of these women and the hundreds of others collected here will restore missing pages to our history and inspire a new generation of women to change the world.

Acquaintances, Old and New, Among Reformers, 1911 ***Women and the Work of Benevolence*** Lori D. Ginzberg, 1990-01-01 Nineteenth-century middle-class Protestant women were fervent in their efforts to do good. Rhetoric, especially in the antebellum years, proclaimed that virtue was more pronounced in women than in men and praised women for their benevolent influence, moral excellence and religious faith. In this book, Lori D. Ginzberg examines a broad spectrum of benevolent work performed by middle and upper-middle-class women from the 1820s to 185 and offers a new interpretation of the shifting political contexts and meanings of this long tradition of women's reform activism. During the antebellum period, says Ginzberg, the idea of female moral superiority and the benevolent work it supported contained both radical and conservative possibilities, encouraging an analysis of femininity that could undermine male dominance as well as guard against impropriety. At the same time, benevolent work and rhetoric were vehicles for the emergence of a new middle-class identity, one which asserts virtue, not wealth, determined status. Ginzberg shows how a new generation that came of age during the 1850s and the Civil War developed new analyses of benevolence and reform. By post-bellum decades, the heirs of antebellum benevolence referred less to a mission of moral regeneration and far more to a responsibility to control the poor and vagrant, signaling the refashioning of the ideology of benevolence from one of gender to one of class. According to

Ginzberg these changing interpretations of benevolent work throughout the century not only signal an important transformation in women s activists culture and politics but also illuminate the historical development of American class identity and of women s role in constructing social and political authority From Preachers to Suffragists Beverly Ann Zink-Sawyer,2003-01-01 Examines the lives and writings of three nineteenth century clergywomen including Antoinette Brown Blackwell Olympia Brown and Anna Howard Shaw who viewed the suffrage movement as an extension of their ministries citing their pivotal contributions to women s rights Original Cultivating Regionalism Kenneth H. Wheeler,2011-11-01 In this ambitious book Kenneth Wheeler revises our understanding of the nineteenth century American Midwest by reconsidering an institution that was pivotal in its making the small college During the antebellum decades Americans built a remarkable number of colleges in the Midwest that would help cultivate their regional identity Through higher education the values of people living north and west of the Ohio River formed the basis of a new Midwestern culture Cultivating Regionalism shows how college founders built robust institutions of higher learning in this socially and ethnically diverse milieu Contrary to conventional wisdom these colleges were much different than their counterparts in the East and South not derivative of them as many historians suggest Manual labor programs for instance nurtured a Midwestern zeal for connecting mind and body And the coeducation of men and women at these schools exploded gender norms throughout the region Students emerging from these colleges would ultimately shape the ethos of the Progressive era and in large numbers take up scientific investigation as an expression of their egalitarian production oriented training More than a history of these antebellum schools this elegantly conceived work exposes the interplay in regionalism between thought and action who antebellum Midwesterners imagined they were and how they built their colleges in distinct ways *Encyclopedia of the Gilded Age and Progressive Era* John D.
